How to Fill Out and Use This Certificate

This certificate is to be submitted annually, filled out with proper signatures. If the same animal remains a project animal, you will need to submit a **new certificate** to the County Extension office by **April 1st of each year** to meet filing requirements.

4-H Member

All 4-H project horses need to have a completed certificate on file with the county. This certificate is valuable. Keep it in a safe place. It is a recognition of your project animal. You may be asked to present it at 4-H fairs to identify your animal. At the end of the year, keep it in your record book as a permanent record. If you own your 4-H animal and it is registered, you should register it in your name.

Fill out all items on the form correctly, including necessary signatures. To insert your horse photos, you will need to resize them to fit in the coordinating box **OR** attach a single page with all 4 photos. Make **3 color copies** of the completed certificate and hand them into your 4-H leader. Save a copy for yourself in your computer documents, print a copy or save on a USB/flash drive for your records.

4-H Leader

Show 4-H members how to fill out the certificate and explain the importance of animal identification. Have members return completed forms for you to sign and send **2 copies** to the County Extension Office. The horse must be under the member's care and management for at least 90 days prior to an exhibit activity.

Extension Youth Educator or Extension Staff

Sign and date each certificate. Return the original copy to the 4-H leader. **Keep second copy for county file.**

Who Retains Copies?

- 4-H Member
- Club Leader
- Extension Office – (will make a copy for the fair superintendent)
- Fair Superintendent

WSU Extension programs and employment are available to all without discrimination. Evidence of noncompliance may be reported through your local WSU Extension office.
