

4-H STEAM Summer Day Camp

In this new 4-H project, 4-H STEAM, you will learn how Science, Technology, Engineering, Art and Math are required to create clothing or other textile products. You will also discover the possibility of creating a business from the products you create and sew. You will think about ways other businesses sell similar products and how you might put a price on your products to be competitive. As you can already see, the 4-H STEAM Summer Sew Fun Day Camp has a lot to offer. We're excited that you're going to join us and learn a new dimension in creative sewing skills.

REGISTRATION CLOSES JULY 1, 2016

**Note: Registration is limited to a maximum of 10 youth.
Non-4-H youth welcome, 4-H members have first priority.**
