

## Why Participate?

Washington Swine Information Day features an array of presentations that have been organized to meet the diverse and unique needs of Pacific Northwest Swine Producers.

The day will begin with a quick update from the WSU Animal Science department, a timely discussion on decreasing market prices followed by a dynamic presentation from the State Veterinarian's Office. The presentations before lunch will cover the new VFD, nutrition and feed additives. Once again, the appetizing luncheon will be sponsored by Pork CheckOff and should be most agreeable. Whilst the participants eat, they will be further updated on the activities of Pork CheckOff and its programs.

The early afternoon session is a concurrent dual action Quality Assurance Training and Certification. Presentations in the latter part of the day will focus on proper preparation for an on-farm audit, updates on the feral hog issue and an overview of Washington Ag in the Classroom.

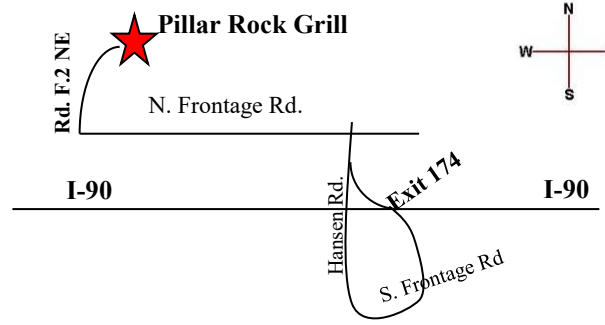

Join us for another grand session to mingle with fellow pork producers. Learn tips to help you gain confidence and courage for the demands of 2017 and enhance your knowledge base. This is an affordable educational opportunity that you won't want to miss!!
