

Shared Animal Project Agreement

Date_____200_____

Name_____Name_____

Project_____Club_____

A shared project animal is defined as only immediate family members or two non-family members sharing the same animal including care and training responsibilities. These two 4-H members may not compete in the same class or lot at an event. (EM0758E Washington State 4-H Youth Development Program Policy)

Animals must be under the 4-H member's regular care and management for the following periods of time prior to the official county exhibit activity, including junior livestock shows:

- Market Beef – 120 days
- Equine, Breeding Beef – 90 days
- Goat, all sheep, all swine, dogs – 60 days
- Poultry, Cavy and Rabbits – 45 days

This agreement is in addition to all other required documents. These would include enrollments, entry forms, certificates and any other project documents required of club or county.

During the Fair or 4-H Show animal care must be divided equally between the two shared members.

Please understand that the shared project animal will be under extra use and therefore extra care must be considered for its health and well-being.

Members and parents must recognize that adjustments may need to be made to adapt to show conditions or schedules such as when two members are in the same class or are competing for Championships.
