'Kellogg's Breakfast'	Indet.	Open	Yes	TT	80-85	Up to 16 oz.	Pale Orange	
'Mortgage Lifter'	Indet.	Open	Yes	TT	75-85	Large	Red	
'Orange Strawberry'	Indet.	Open	Yes	TT	80	8 to 16 oz.	Orange	
'Super Fantastic Hybrid VFN'	Indet.	Hybrid	No	TT	70	10 oz.	Red	
Tomato - Paste/Roma								
'Martino's Roma'	Det.	Open	Yes	TT	75	3" Long, 2 oz.	Red	
'San Marzano'	Indet.	Open	No	TT	80	3.5 x 1.5"	Red	
'Cuore Di Bue'	Indet.	Open	No	TS	85	7-8 oz.	Red/Orange	One of Tastiest Saucing Types
Tomato - Cherry								
'Jelly Bean Yellow Hybrid'	Indet.	Hybrid	No	TT	72	1/4 oz.	Yellow	Grape Size
'Juliet Hybrid'	Indet.	Hybrid	No	TT	60	1 oz.	Red	AAS Winner 1999
'Sungold Hybrid'	Indet.	Hybrid	No	TT	57	"Bite-size"	Golden	Tomato Gala Taste Test Winner
'SunSugar Hybrid'	Indet.	Hybrid	No	TT	62	1/2 oz.	Golden-Yellow	Tangy "True Tomato" Taste
'Supersweet 100 Hybrid VF'	Indet.	Hybrid	No	TT	65	1" dia., 1 oz.	Red	"Extra High Vitamin C"
'Sweet Million Hybrid FT'	Indet.	Hybrid	No	TT	60	1 to 1.5" dia.	Red	

Tomato Terminology

Determinate - Plant growth is followed by massive fruit set over a very concentrated time, very narrow window for fruit ripening, pruning significantly reduces harvest, high fruit-to-foliage ratio = less flavor intensity, great for paste (Roma) for canning

Indeterminate - By far the most common type tomato, grows upward and outward until killed by frost, central main stem with suckers, if vertically staked can reach 10-12', continuous fruit until plant dies, higher ratio of foliage to fruit = INCREASED FLAVOR

Heirloom - Open-pollinated varieties with "history and value embedded within its story", more variety of colors, shapes, sizes and flavors than hybrid tomatoes, saved seeds reproduce same plant, can have less "eye appeal", typically less disease resistant than hybrids

Hybrid - Cross between two different tomatoes, seeds from hybrid plant may not reproduce same plant, typically more vigorous and disease resistant than heirloom tomatoes, overall can be best for the home gardener, can sacrifice on flavor vs heirlooms
