for Public Policy and Public Service

Public Lecture

Fantasyland

Thursday October 4 | 4:30 p.m.
CUB Junior Ballroom

The United States has widely divergent opinions from the rest of the world when it comes to issues such as evolution, gun control, and climate change amongst many others. How has this happened and why are Americans so prone to fantastical thinking?

Kurt Andersen, author of the bestselling book *"Fantasyland: How America Went Haywire"* will speak about the crumbling border between opinion and fact in America in the age of fake news.

Cosponsored with the WSU School of Politics, Philosophy, and Public Affairs,
and the Departments of History and English
