Marijuana
Evil weed or medical miracle?

Wednesday September 4 | 12 p.m.
Foley Speaker’s Room | 308 Bryan Hall

In 1990, less than 20% of Americans supported legalizing marijuana. Today, over 60% want to legalize it. What changed, and what is the future for marijuana policy?

Rebecca Craft is Herbert L. Eastlick Distinguished Professor of Biological Sciences in the Department of Psychology at Washington State University. Her research focuses on how medical and recreational drugs affect the body.
