

## Classification of Registrant Status

Approved by

Ronald E. Filipy, Director  
March 2002

*This policy outlines the way in which registrants are to be classified according to their status.*

### **Registrants are categorized as one of the following:**

Active: any living Registrant (Category 1 and 2, P202) with current valid donor authorizations.

Inactive: any previously active Registrant (including Category 3, P202) whose authorizations have been terminated, expired, or who is lost to follow-up.

Deceased: Registrants who died while active, and whose donation was not rescinded by the next-of-kin or other legal authority, or a donation of tissue or data legally received after death.
