Welcome to Graduate Music Studies at WSU. This section, which deals specifically with policies and procedures for the graduate music program, has been prepared as a companion to the WSU Graduate School Policies. It should not be construed as a substitute for the Policies and Procedures of the WSU Graduate School nor preceding sections of this School of Music Program Handbook.

All graduate students, staff and faculty should be cognizant of the Policies and Procedures of the WSU Graduate School as well as those of the School of Music. Questions or clarifications pertaining to policies and procedures of graduate study in music may be addressed to the Graduate Program Coordinator in the School of Music Program or, in her absence, the Graduate Program Director, who is the Director of the School of Music.

The School of Music offers the degree Master of Arts in Music, which may be earned through studies in the areas of music education, composition, music history and literature, conducting, and performance studies. Though selection of an emphasis is not required, four emphases are available. The emphasis in music education provides advances studies for experience and prospective teachers. The emphases in performance (including conducting) and composition are selected by students wishing to teach at the college level or intending to enter such professions as music performance, conducting, composing and arranging. Students electing the jazz emphasis focus on one or more aspects of jazz music – performance, composition, arranging, pedagogy, or history for example – in preparation for careers in jazz. The program offers both thesis and non-thesis options, designed according to the goals of the student. Composition emphasis students must complete the thesis option.

The Master of Arts in Music degree offered by the School of Music Program is flexible and provides students the opportunity to develop a unique program of study to satisfy individual interests and goals. The intention of the School of Music Program and its Graduate Faculty is to provide the best of instruction to our graduate students, maintaining the highest of standards.

Shannon Scott
Graduate Program Coordinator
School of Music
Washington State University
I. GRADUATE ADMISSIONS

Admission to the graduate program in music is governed by the policies and procedures of the WSU Graduate School. The general requirements are as follows:

Students who wish to study for advanced degrees must gain admission to the WSU Graduate School.

A. A prospective student must have received a baccalaureate degree from a college or university accredited by a recognized accrediting association. Students with a baccalaureate degree from a non-accredited institution will be considered for admission only upon special petition to the Dean of the Graduate School.

B. The student must be accepted by the department or program in which the student seeks a degree or graduate work.

C. Admission must be approved by the Associate Dean of the Graduate School. Such approval will be given (assuming A and B above) when evidence indicates a high probability of success in the degree program to which the student seeks admission.

D. Decisions on applicants are individual, not class decisions. Applicants may not be acceptable regardless of the institution from which credentials are submitted or regardless of the nature of those credentials if the applicant’s preparation is not considered to be adequate or appropriate. All application materials should be sent directly to the Graduate School which will disseminate the information to the School of Music. All graduate student applicants must supply three letters of recommendation along with their application and official transcripts to the Graduate School. They must also include a written statement of purpose which should address their professional goals and how graduate study will assist them. They may also discuss any aspects of their life that may not be apparent on their application or transcripts but of which they would like the faculty to be made aware.

In addition to the general requirements for admission to the Graduate School, the School of Music requires the following:

E. A prospective music student must have earned a baccalaureate degree in music from an accredited college or university.

F. All graduate student applicants must complete a vocal or instrumental audition prior to admission. When possible the applicant should audition and be personally interviewed on the WSU campus. Recordings may be submitted in lieu of a personal audition. Passing the audition confirms the applicant’s
preparedness to perform at a graduate level, capable of enrolling in a 500-level ensemble. Auditions are heard by at least one ensemble director and at least one faculty member who teaches the applicant’s instrument or voice.

G. All applicants must have a GPA of at least a 3.0 in their undergraduate music core courses of theory and history.

H. Manuscripts, video recordings, written research, and/or performance of a more comprehensive audition are required for acceptance into particular emphases – composition, performance (including conducting), music education, or jazz studies – of the M.A. in Music. Such materials or performance may be presented following initial enrollment but must be reviewed prior to submission of a Program of Study naming an emphasis. Reviews confirm candidate’s preparedness to complete course work required by the respective emphases.

I. Neither the General Test nor the advanced Music Test of the Graduate Record Examinations (GRE) is required for admission to the graduate program in music.

J. All incoming graduate students must take diagnostic entry proficiency examinations in Music theory (including aural skills), Music history and literature, and piano skills. The results of these examinations are used to help plan each student’s course of study. Diagnostic proficiency examinations are administered each semester (Fall and Spring) on the Monday and Tuesday one week preceding the first day of classes.

The formulation of these examinations has evolved over a period of years with area faculty working closely with area coordinators to create examinations that test a wide variety of knowledge and skills deemed essential for successful completion of the M.A. Degree in the School of Music Program at Washington State University.

The administration of these examinations is coordinated by Dr. Ryan Hare (theory, aural skills, keyboard skills), Dr. Jeffrey Savage (piano) and Dr. Keri McCarthy (music history). All examinations must be completed prior to initial enrollment in the Music Graduate Program.

Links describing the content of each exam are found on the School of Music Graduate Studies page, http://libarts.wsu.edu/music/graduate/orientation.htm

The entry proficiency examinations are an internal matter, with no scores reported externally. Each examination becomes a permanent part of the student’s record.
II. REQUIRED MUSIC PROFICIENCIES UPON ENTRY

A. Currently all graduate students are expected to enter the graduate program having skills commensurate with the School of Music's undergraduate requirements in keyboard, theory, history/literature and aural studies.

B. History/literature and theory studies not covered in the individual's undergraduate course work may be supplemented by graduate level courses which may count toward graduation.

III. PROFICIENCY EXAMS: DEFICIENCIES AND REMEDIAL WORK

A. Entrance proficiency exams, or portions thereof, not passed successfully will be reported to the Graduate Program Coordinator and/or applied professor with a recommendation for remedial work.

B. All remedial courses must be passed with a grade of B or better. Any course with a B- or below must be repeated but the lower grade will still affect the student’s overall GPA.

C. No graduate credit is awarded toward the master's program for remedial work. (see XV)

IV. DEGREE REQUIREMENTS, CREDITS AND TRANSFER CREDITS

A. Core curriculum requirements for all graduate students include 2 credits of MUS 560 Introduction to Graduate Studies in Music; two graduate courses in music theory, fulfilled by taking 2 credits of MUS 553 Seminar in Analysis and 2 credits of MUS 550 Seminar in Music Theory, or by taking two semesters of MUS 550 at 2 credits each; two graduate music history courses, fulfilled by taking 2 credits of MUS 561 Seminar in Literature of 20th Century Music and 2 credits of MUS 566 Seminar in Music History, or by taking two semesters of MUS 566 at 2 credits each; and 4 credits of performance (lessons and/or ensembles)—totaling fourteen (14) credit hours. The remaining credit hours must include a minimum 4 credit hours of MUS 700 Master's Research, Thesis and Examination or MUS 702 Master's Special Problems, Directed Study and Examination.

B. The thesis degree program must consist of not fewer than 30 hours of credit including a minimum of 21 hours of graded course work and a thesis for up to 9 credits in Master's Research, Thesis and Examination (MUS 700). The program must include at least 20 credits in Music courses (including the thesis) and may contain up to 10 hours of supporting work (exclusive of special problems or research) taken outside the School of Music Program. Any courses graded S/F other than MUS 700, which is graded S/U, may not be
used for the major and/or supporting course work for the thesis program. No credit is awarded for MUS 700 work receiving a grade of U. At least 24 credits of the 30 required must be at or above the 500 level. Students emphasizing composition are considered to be under the thesis program. Not more than 6 credits of all degree course work may be in courses listed at the 300 or 400 level. 300-level courses assigned for remedial work may not be counted in any case.

C. The non-thesis degree program must consist of not fewer than 30 hours of credit including a minimum of 26 hours of graded course work and 4 hours of MUS 702, the Master's Special Problems, Directed Study and Examination. A minimum of 20 hours of Music courses must be included. The program may contain up to 10 hours (exclusive of special problems or research) of supporting work taken outside the major area. Any course graded S/F other than the 702 project, which is graded S/U, may not be used for the major and/or supporting course work for the non-thesis program. No credit is awarded for MUS 702 work receiving a grade of U. At least 24 credits of the 30 required must be at or above the 500 level. Not more than 6 credits of all course work may be in courses listed at the 300 or 400 level. 300-level courses assigned for remedial work may not be counted in any case.

D. Though selection of an Emphasis within the Master of Arts in Music is not required, four emphases are available. These are: Music Education, Composition, Jazz and Performance (including conducting). All emphases require completion of the 14 credits of the music graduate core. As stated above, the Composition Emphasis requires completion of a MUS 700 Thesis. The Performance Emphasis requires completion of MUS 522 Graduate Recital as well as completion of the MUS 700 or 702 project.

E. A student may petition the Graduate Studies Committee for an exception to any of the above requirements if the petition is based on academic goals of the proposed program of studies.

F. Transfer credit is formally requested by listing the courses on the degree program, but preliminary determination will be made earlier upon request to the Graduate School. In addition to the limitations stated here, the Graduate School and the Music Program limit the number of transferable applied study credits to four (4) semester credit hours. Appropriate credits (with a grade of B or higher) earned in other accredited graduate schools may be applied to a limited extent toward an advanced degree; however, they may not be substituted for residence requirements.

G. Credit earned in graduate-level courses taken through the WSU Office of Extended University Services will be accepted on graduate student programs without limit subject only to customary program approvals. No extension credits from other institutions, or
work done by correspondence with this or any other institution, or credit earned by special examination may be used to meet advanced degree requirements.

H. The Graduate School provides the opportunity for exceptional graduate students to prepare a program of study leading to the degree Doctor of Philosophy or Doctor of Arts outside the area of any department or program presently authorized to offer the doctoral degree. A student who wishes to enroll in this program must meet the following minimum requirements:

1. The student must have been granted both a bachelor's degree and a master's degree from an accredited university. Equivalent academic achievement, judged by the Associate Dean of the Graduate School, may be substituted.
2. The student must have studied at Washington State University as a full time student in a recognized program for at least one academic year.
3. The student must have obtained at least a 3.25 GPA in graduate coursework.

Proposals for Interdisciplinary Doctoral Programs must be approved by the Graduate Studies Committee at least two full semesters before the semester in which the preliminary examination is written.

To be admitted to the program, applicants must undertake a number of steps. Applicants wishing to pursue an interdisciplinary degree program should contact the Associate Dean of the Graduate School.

V. EVALUATION OF GRADUATE STUDENTS IN MUSIC

Comprehensive evaluation of students in the master’s program is achieved through the following methods:

A. Entrance exams that evaluate strengths and weaknesses in history, literature, theory (including aural skills and piano proficiency), and performance skills in applied areas.

B. Course work evaluations.

C. Independent study and special project evaluations.

D. Annual review of each graduate student as mandated by the following Graduate School policy:

All departments must make an annual review of each graduate student. Each student will be notified each spring semester by the Graduate Program Coordinator in writing of the student's progress.
After appropriate faculty members have been consulted, the names of those students to be dropped from a program shall be sent to the Associate Dean of the Graduate School.

E. Graduate recital evaluations by composite ballot for students emphasizing applied performance.

F. Jury exams when graduate level applied study is part of a student’s program.

G. Oral examination as follows:

A final oral examination is required of all masters’ candidates. This examination is intended to test the candidate’s ability to integrate and interpret material in the major and supporting fields with emphasis on work presented in the thesis or special problems.

VI. GRADE POINT AVERAGES AND GRADES

A. The Graduate School and the School of Music Program require that a student’s undergraduate grade point average with no previous graduate study be 3.0 or higher, based on A=4.0, for entrance into the graduate program. The School of Music also requires that all graduate applicants must have a GPA of at least a 3.0 in their undergraduate music core courses of theory and history.

B. A regular graduate student (Class 6) must have had previous undergraduate or graduate work averaging 3.0 or higher in order to be admitted to the Graduate School and the M.A. program in Music. This grade point average is calculated from the last half of undergraduate study, or total graduate study of twelve (12) semester hours or more.

C. Retention in the masters program in Music requires a cumulative grade point average of 3.0 or higher.

D. A graduate student must earn a grade of B or better in all courses listed on their Program of Study in order for the course to be counted toward their degree. This is a higher expectation than the minimum requirement of the Graduate School. If the grade in a course listed in the student’s Program of Study is lower than a B, the course will need to be retaken in order to count on the Program of Study but the lower grade will still affect the overall GPA. After retaking the course, a replacement of the lower grade will need to be requested by the student and faculty as it is not automatically substituted or reflected in the GPA.

E. 702 Credit: Graduate School Policy states in Chapter 3, Section 4 “The 702 credit is a Master’s Special Problems, Directed Study, and/or
Examination credit. Credits are variable and grading is satisfactory/unsatisfactory (S,U). Credit is awarded for a grade of S; no credit is awarded for a grade of U. The S/U grade does not carry any quality points and is not calculated in the grade point average (GPA). Faculty should set course requirements for each semester that a student is enrolled in 702 credits, and provide an S/U grade at the end of the semester based on the student’s performance in meeting those requirements. In the event of exam failure, a U grade may be recorded for that semester’s 702 credits. Two U grades for 702 credits will lead to dismissal from the program.”

F. 700/800-Level Research Credit: Graduate School Policy states in Chapter 3, Section 5 “Each graduate program has associated 700- (Master's) or 800- (Doctoral) level credits for research and advanced study. The 700-level credit is for students working on their master's research, thesis and/or examination. The 800-level credit is for doctoral research, dissertation and/or examination. Credits are variable and grading is satisfactory/unsatisfactory (S,U). Credit is awarded for a grade of S; no credit is awarded for a grade of U. The S/U grade does not carry any quality points and is not calculated in the grade point average (GPA). Faculty should set requirements for each semester that a student is enrolled in research credits, and provide an S/U grade at the end of the semester based on the student’s performance in meeting those requirements. In the event of exam failure, a U grade may be recorded for that semester’s 700 or 800 credits. Two U grades for 700 or 800 credits will lead to dismissal from the program.”

G. X grades for Music 700/702 credits: Washington State University Catalog 90j states the X grade “denotes continuing progress toward completion of special problems, research, thesis, doctoral dissertation (i.e., 499, 600, 700, 702, 800), or flexible enrollment courses; X grades are converted to S or to a letter grade upon satisfactory completion. All outstanding incomplete work (including grades of I, X, and blank/no grade) must be completed and posted to the official transcript prior to the conferral of the degree. An X grade may also be used when no final grade is reported due to instructor’s illness or absence.”

VII. GRADUATION REQUIREMENTS

A. The graduation requirements of the Graduate School as published in the Graduate Study Bulletin in effect at the time of the student's initial admission as a regular or provisional graduate student are those that must be met for completion of a graduate degree program. Music Program requirements for graduation are those in effect at the time the student files a Program of Study.

Subsequent changes in degree requirements of the Graduate School or in Music Program requirements may be substituted at the
option of the student upon approval by the master’s committee, by
the Director of the School, and by the Dean of the Graduate
School.

If a student is dropped from the University for failure to maintain
continuous enrollment, the graduation requirements of the
Graduate School are those in effect at the time of re-admission to
the Graduate School. Likewise the graduation requirements of the
School of Music are those in effect at the time of re-admission to
the School of Music.

Graduate School policy is derived from actions of the Graduate
Studies Committee, the University Senate, the President, and the
Board of Regents. Interpretations of policy are made by the
Graduate School acting for the Committee. Recommendations for
changes in policy should be addressed to the Graduate Studies
Committee through the Dean of the Graduate School.

B. It is the intention of the Graduate School to relieve professors and
departments of the details of administration, permitting maximum
freedom in decision-making consistent with established policies and
with high standards of graduate education. In general, the policies
of the Graduate School represent minimal standards for graduate
student admission, continuance, and degree completion. Departmental requirements may and usually do, go beyond these
minimum standards.

VIII. RESIDENCE REQUIREMENT

The residence requirement for the master’s degree is one academic year. Summer sessions will be counted toward the residence requirement as follows:
two summer sessions equal one semester, three summer sessions equal one
academic year.

IX. MASTER’S ORAL EXAMINATION – THESIS AND NON-THESIS

The examining committee shall include the members of the master’s committee,
with the chairperson presiding, the representative of the Graduate Studies
Committee, and any other members of the Graduate Faculty in attendance. All
may ask questions and vote. All members of the master’s committee must
attend and vote. In the School of Music all faculty, regardless of voting privilege,
are welcome to participate in graduate oral exams.

In the final semester of enrollment, the student will apply to schedule the final
oral examination. The exam will be scheduled 10 working days or more a) after
submission of both the signed Final Oral/Acceptance form and the Authorization
for Copying Thesis or Dissertation form and presentation of the original and two
acceptable copies of the preliminary approved thesis (thesis degree) to the
Graduate School or b) after the signed Final Oral Scheduling form (non-thesis
degree) is presented. The oral examination may emphasize the work presented in the thesis or special/directed study.

The School of Music Program requires that an acceptable copy of the student’s thesis (MUS 700) or special project (MUS 702) be furnished to all members of the committee and the Representative of the Graduate Studies Committee at least ten working days prior to a scheduled oral examination. Upon successful completion of the oral examination, the student places a signed copy in the Kemble Stout Music Listening Library.

X. DATA SHEET FOR ORAL EXAM

The School of Music requires all graduate students taking an oral examination to prepare a data sheet for distribution at the exam. This data sheet does not have to repeat the information contained on the M.A. program form. The data sheets should be similar to, or in fact be, a resume or curriculum vita. Sample data sheets are available from the Graduate Studies Coordinator.

XI. ADVISOR/COMMITTEE, CHAIRPERSON/COMMITTEE MEMBERSHIP

Upon initial enrollment, graduate students will be advised by the Graduate Studies Coordinator in consultation with the student’s applied major professor if appropriate. With the formal appointment of a student’s graduate committee (accomplished by filing the Master of Arts Program of Study with the Graduate School), the chair of that committee becomes the student’s advisor. Selection of a committee is the responsibility of the graduate student, in consultation with her/his advisor/committee chairperson. A graduate student’s committee consists of a minimum of three faculty members, one of which must be a tenured music faculty member. It is the responsibility of the student to maintain active contact and communication with all members of the committee.

XII. SPECIAL REGISTRATION POLICIES AND PROCEDURES

Registration for MUS 519, MUS 600, MUS 700 and MUS 702 may not take place until appropriate forms available in the Music Office have been filled out and approved.

A. MUS 519 - Secondary Performance Study (see appendix A). At pre-registration time, file the MUS 519 Information Sheet with the Music Office. Forms are available in the Music Office. Graduate students enrolled for MUS 519 (Secondary Performance Study) are required to take a jury examination at the conclusion of each semester of study.

B. MUS 560 - All graduate students in music are required to register for and complete MUS 560 (Introduction to Graduate Studies) in the first semester this course is offered during their matriculation at WSU.
C. MUS 600 - Special Projects or Independent Study (see appendix B)
MUS 600 is designed to accommodate student projects which fall outside the subject matter of the formal courses listed by the Music Program. The student must obtain the agreement of a faculty member to supervise the project and then complete the development of a proposal. After both the faculty supervisor and the School of Music Program Coordinator have approved the proposal, the student may enroll in MUS 600 for the approved number of credits, but not more than 4 credits.

Normally, enrollment in MUS 600 is for 2 credits or less in any one semester. All MUS 600 projects are S/F grading only and are not computed into the cumulative GPA.

Three hours of approved work per week or 45 hours per semester are approximately equivalent to one credit hour, consistent with the University formula for assigning credit to laboratory courses.

Procedures:

1. Discuss the idea with a faculty member to negotiate content, procedure and credit.

2. Prepare a proposal on the MUS 600 form, typed or printed in dark ink. MUS 600 forms are available in the Music Office or online in the Graduate Program in Music Washington State University School of Music Policies and Procedures part XI.

3. Obtain approval signature of faculty supervisor.

4. Obtain approval signature of School of Music Program Coordinator.

5. Following approval signatures, all copies are to be turned in to the Music Office for distribution. Copies go to the student, faculty supervisor, student’s file, Music office file, and the Graduate Program Coordinator.

6. Register for the course in accordance with the proposal.

D. MUS 700 - (see appendix C)

Guidelines and Procedures for MUS 700, Master’s Research, Thesis, and/or Examination.

The 700-level credit is for students working on their master’s research, thesis and/or examination. Credits are variable and grading is satisfactory/unsatisfactory. Credit is awarded for a grade of S; no credit is awarded for a grade of U. If a student received two U grades during his/her
graduate studies, he/she will be considered academically deficient and subject to
dismissal from the Graduate School.

MUS 700 is a required variable credit course for thesis graduate students,
regardless of area of emphasis. Normally it involves the full preparatory study
and final format of the thesis under the supervision of the major teacher and the
committee. In all theses, a written verbal component shall be included in the
completed document, regardless of the medium of the thesis or area of emphasis
within the degree. The master’s committee will ensure that the student has
followed an appropriate format and that the thesis content is acceptable. A
description of the Graduate School requirement for final acceptance is available
from the Graduate School. The graduate student is directly responsible for the
consultations, completion and acceptability of the MUS 700 thesis no later than
ten (10) working days prior to a scheduled oral examination.

The MUS 700 proposal is submitted no later than the second semester of a four-
semester course of study. After the approval of the MUS 700 proposal, the
number of credits carried under this number may be negotiated each semester
by the student and major teacher. The normal MUS 700 credit load is 2 per
semester.

Procedures:

1. Initiate proposal ideas with major teacher.

2. Select, in consultation with the committee chairperson, the
other members of the committee. A graduate committee
consists of at least three members, two of whom must be on
the Graduate Faculty.

3. Discuss MUS 700 proposal with all committee members.

4. Prepare a proposal on the MUS 700 form, typed or printed in
dark ink. MUS 700 forms are available in the Music Office or
online in the Graduate Program in Music Washington State
University Policies and Procedures, Part XI.

5. Obtain approval signatures of MUS 700 chairperson and all
committee members prior to registration.

6. Submit eight (8) copies of the completed MUS 700 proposal
to the Music Office.

Upon successful completion of a MUS 700 thesis and the oral examination, the
student submits the final thesis to the Graduate School following the procedures
found in Graduate School Policies and Procedures Manual Chapter 6 Section H
Submitting the Final Thesis or Dissertation to the Graduate School.
13-2014(1).pdf. A copy, bearing a signature page, coil bound, is to be presented
by the student to the Kemble Stout Music Listening Library for permanent cataloging and shelving.

Subsequent pages – In the case of a musical composition, the subsequent pages may contain a list of the instrumentation, performance notes, designations of special notation, and any other matters which the composer deems necessary and appropriate to the piece.

Manuscript – In the case of a musical composition, the thesis major teacher and the committee members will agree upon the most appropriate manuscript for the medium employed, including duplication process, margins, notational details and the like.

E. MUS 702 – (see appendix G)
Guidelines and Procedures for MUS 702, Master’s Special Problems, Directed Study and/or Examination

The 702-level credit is for students working on their Master’s Special Problems, Directed Study and/or Examination Credit. Credits are variable and grading is satisfactory/unsatisfactory. Credit is awarded for a grade of S; no credit is awarded for a grade of U. If a student receives two U grades during his/her graduate studies, he/she will be considered academically deficient and subject to dismissal from the Graduate School.

MUS 702 is a required variable credit course for non-thesis graduate students, regardless of area of emphasis. The MUS 702 is an in-depth directed study or special problem, mutually agreed and worked upon with the members of the graduate committee. In all 702 projects, a written verbal component shall be included in the completed document, regardless of medium of the project or area of emphasis within the degree. A minimum of 4 accumulated credit hours is required in the non-thesis option for the MUS 702. Registration for MUS 702 generally does not exceed 2 credit hours per semester. The graduate student is directly responsible for the consultations, completion and acceptability of the MUS 702 no later than ten (10) working days prior to a scheduled oral examination.
In most instances the chairman of the graduate committee will also be the MUS 702 supervisor. Most MUS 702 special problems/directed studies are completed during the graduate student’s final year of study. The MUS 702 proposal is submitted no later than the second semester of a four-semester course of study.

Procedures:

1. Initiate proposal ideas with Graduate Program Coordinator.

2. Select, in consultation with the Graduate Program Coordinator, a chairperson and other members of the committee. A graduate committee consists of at least three members, two of whom must be on the Graduate Faculty.

3. Discuss MUS 702 proposal ideas with all committee members.

4. Prepare a proposal on the MUS 702 form, typed or printed in dark ink. MUS 702 forms are available in the Music Office or online in the Graduate Program in Music Washington State University Policies and Procedures, Part XI.

5. Obtain approval signatures of MUS 702 supervisor and all members of the committee prior to registration.

6. Submit eight (8) copies of the completed MUS 702 proposal to the Music Office.

Upon successful completion of a MUS 702 project and the oral examination, the student presents a copy of the project, bearing a signature page, coil bound, to the Kemble Stout Music Listening Library for permanent cataloging and shelving. Previous MUS 702 projects on file in the Library should be consulted as models.

XIII. GRADUATE RECITAL POLICIES – MUS 522

A. The Graduate Faculty of the Music Program requires that the composite ballot vote on a Graduate Recital (MUS 522), presented in partial fulfillment of the Master of Arts in Music Degree, be no lower than letter grade B minus (-).

B. The number of faculty balloting graduate recitals (MUS 522) shall be three, with all to be selected by the Graduate Program Coordinator.

C. The music program’s method for determining a composite graduate recital grade is based on the following scale:

   From 3.85 – 4.0  = A
   From 3.5  – 3.84 = A-
   From 3.15 – 3.49 = B+
   From 2.85 – 3.14 = B
   From 2.5  – 2.84 = B-

D. A report of the composite grade, along with faculty comments by name, will be sent by the School of Music Program Coordinator to the graduate student after the recital has been presented. (See appendix K)

E. If a student wishes to re-enroll for MUS 522 and receive credit for a second recital, the balloting will be done similarly, but the first balloted recital remains on the student’s record as the required degree recital. Any non-required recital will be held in Kimbrough
115 or similar facilities. Accompanists are not normally assigned to non-required recitals.

XIV. M.A. PROGRAM CREDIT FOR PERFORMANCE GROUPS (ENSEMBLES)

While there is no specific limit on the number of performance groups (ensembles) for which a graduate student may register, only four (4) credits of performance group (ensemble) participation may be applied toward the thirty (30) credits required for the Master of Arts in Music.

XV. NO M.A. PROGRAM CREDIT FOR REMEDIAL STUDY

No graduate credit is awarded towards the master’s program for remedial work (see page X-3, III, C). Space for listing remedial work is provided at the bottom of the master’s program form.

XVI. FILING OF THE PROGRAM OF STUDY AND THE MASTER’S PROGRAM

The Program of Study and the Proposal for a MUS 700 Master’s Research, Thesis, and/or Examination or MUS 702 Master’s Special Problems, Directed Study and/or Examination should be submitted on required forms from the Graduate School and the School of Music no later than the beginning of closed week of the second semester of a four-semester course of study. If the student does not complete these submissions by the beginning of closed week of the second semester in a four-semester course of study, the 700 or 702 grade for that semester will be U.

XVI. MASTER’S DEGREE TIME LIMIT

The time limit for the use of graduate credit toward a master’s degree is six years from the beginning date of the earliest course applied toward the degree.

XVII. ASSISTANTSHIPS AND RENEWALS

Teaching and research assistantship appointments are governed by the Policies and Procedures of the Graduate School and the School of Music. Needs of the School of Music vary from year to year and only qualified applicants will be considered for an assistantship. International graduate students whose native language is not English and who have not previously held a teaching assistantship at Washington State University are required to take an English proficiency examination before being granted a teaching assistantship.

Renewal of assistantships is contingent upon the following:

A. Receipt by the Graduate Program Director or the Graduate Program Coordinator of a written request for renewal.
B. Ordinarily master’s candidates may hold an appointment for a time limit of not more than two years.

C. Graduate students may not carry a grade of I (incomplete) longer than one semester or summer session while on appointment. New or renewed appointments will not be approved for students who have earned a grade of I for longer than one semester or summer session.

D. Reappointment normally will be approved if recommended by the School of Music provided the student has maintained a 3.0 cumulative grade point average or higher in all work (including undergraduate course work) since initial admission to the Graduate School, provided there are not outstanding incomplete grades of more than one semester or summer session’s duration, and provided the student submits and receives approval of the Program of Study (including 700 or 702 proposal) at the close of the first year of study.

XVIII. RESIDENT AND NON-RESIDENT TUITION/OPERATING FEE WAIVERS

A. Students holding graduate service appointments (assistantships) on a half-time (20 hours) basis may be qualified for full waiver of the resident operating fee and the out-of-state fee differential if the student is a non-resident. Such students are required to pay the tuition and activities fees as well as the damage deposit, optional insurance coverage, and other charges, usually totaling about $1,000 per year. The Graduate School does not guarantee funding of the out-of-state differential beyond the first year of study.

B. A non-resident student on a half-time appointment may qualify for resident status during the second year of study under the terms described in item XXI.

C. All Teaching Assistant appointees are required to live in the state of Washington while on appointment.

XIX. WORK-STUDY ASSISTANTSHIPS

Work Study Assistantships are subject to the student’s eligibility. It is the student’s responsibility to handle all details of application at the Office of Financial Aid. Only approved duties, cleared with the Director of the School of Music will be compensated as work study hours. Students should verify reported work hours with the Director before submitting work report data to the Music Office.

XX. RESIDENT STATUS

Establishing residency in the state of Washington is a requirement for in-state tuition during the second year of study in most cases. Students must begin the
process of accumulating documentation to establish residency within the first 30
days of residing in Washington State. Examine carefully the current legal
requirements for establishing residency found at

Residency for tuition and fee purposes is determined by Section 4, Chapter 37
Laws of 1982, First Extraordinary Session and regulations contained in Chapter
250-18 WAC.

The Administration of resident status shall be the responsibility of the Board or
Regents through the institutional official appointed responsible for making
decisions on resident status. Currently, this is the Associate Dean of the
Graduate School.

A resident student is one who is financially dependent upon a parent or legal
guardian who maintains a bona fide domicile in the state of Washington or a
financially independent student who maintains a bona fide domicile in the state of
Washington for other than educational purposes. Financial dependence shall be
determined by the amount and kind of financial assistance given to a student and
whether or not the student has been claimed as a deduction on income tax forms
in the year immediately preceding the year in which the application for resident
status is made. The term domicile denotes a person’s true, find permanent home
and place of habitation. Financial dependency or independency must be
established for at least a one-year period immediately preceding the semester for
which resident status is sought.

Active duty United States military personnel who have been stationed in the state
of Washington for one year shall be considered to have resided in the state for
purposes primarily other than educational and shall be considered financially
independent.

Normally, to achieve residency at the beginning of the second year, change all
registrations, licenses and other documentation at the beginning of the very first
year.

Once a student’s residency classification has been determined, that classification
will remain unchanged in the absence of written evidence justifying change
during the time the student is in continuous enrollment.

Applications for change in resident status must be submitted to the Graduate
School no later than the 30th day following the first day of instruction of the
semester for which application is made, assuming the student is qualified for
resident status on the first day of classes of the semester. The burden of proof of
resident status lies with the student.

Appeals of institutional determinations of classification shall be subject to court
review only under procedures described in Chapter RCW 288.19. If erroneous,
untrue or incorrect information submitted on an application results in an improper
classification of resident or non-resident status or a final determination is
reversed through the appeals process, institutions shall recover from the student

Part XI - 20
or refund to the student, as the case may be, an amount equal to the total difference in tuition and fees had proper classification been made.

In accordance with RCW 288.15.014 certain non-residents shall be exempt from paying the non-resident tuition and fee differential. To be eligible for an exemption a non-resident student must provide documented evidence that she/he resides in the state of Washington and (1) holds a graduate service appointment designated as such by the institution involving no less than 20 hours per week; (2) is employed for an academic department in support of instructional or research programs involving not less than 20 hours per week or (3) is a faculty member, classified staff member or administratively exempt employee holding not less than half-time appointment or the spouse or dependent child of such a person. Exemption from non-resident tuition and fee differential shall apply only during the term(s) such person shall hold such appointments or be employed.

XXI. CAREER SERVICES AND PLACEMENT CENTER (CSPC)

All graduate students are urged to register and set up a placement file with the Career Services in the Lighty Student Services Building (335-2546). All information regarding the use of and procedures for registering are available in the Career Services office.

XXII. EXCEPTIONS TO POLICY, APPEALS PROCEDURE

Any request for an exception to policy for an individual student should be submitted in writing by, or through, the major professor and the Music Program Coordinator to the Associate Dean of the Graduate School. The Associate Dean may then act upon the request or refer it to the Graduate Studies Committee. Any decision by the Graduate School concerning the academic status of a student may be referred to the Graduate Studies Committee for review upon request of the student, the School of Music Program Coordinator or a thesis committee chairperson.

XXIV. POLICY REGARDING ENROLLMENT OF STUDENTS NOT ON APPOINTMENT SOLELY FOR THE PURPOSE OF COMPLETING THESES OR DISSERTATIONS AND TAKING FINAL OR PRELIMINARY EXAMINATIONS.

Students not on appointment enrolling solely for the purpose of taking final or preliminary examinations must enroll for a minimum of two (2) credit hours if enrollment is completed by the tenth day of classes. The student’s theses, dissertations or special problems must have been completed during the prior semester to be eligible for the two-credit enrollment. If enrollment is completed after the tenth day of classes, four (4) credit hours will be required.

Students not on appointment enrolling solely for the purpose of completing theses or dissertations and taking final examinations may enroll for a minimum of three (3) credit hours, if enrollment is completed by the tenth day of classes. If enrollment is completed after the tenth day of classes four (4) credit hours will be required.
The chairpersons of students who enroll under these provisions for two (2) or three (3) credit hours prior to the tenth day of classes must send a memorandum to the Associate Dean of the Graduate School stating that the student is enrolling solely for the purpose of taking examinations (2 credit hours) or solely for the purpose of completing a thesis or dissertation (3 credit hours). If this memorandum has not been received in the Graduate School by the date that the student files the application for degree, the student will be required to enroll for four (4) credit hours.

This policy should not be construed to modify in any way the program requirements for degrees specified in the Policies and Procedures of the Graduate School, nor does it limit departmental or program authority to require enrollment of more credit hours for the purpose of satisfying departmental requirements.

XXV. GRADUATE LEAVE STATUS

From the 2013-2014 Policies and Procedures, Chapter 5, A. 6., Official Graduate Leave of Absence

Graduate Leave Status is granted for students in active status (enrolled or in CDS) who must be away from their studies for one or more semesters for personal, family, job, financial, military or Peace Corps service, or other compelling reasons. . . . Students must apply for Graduate Leave through the Graduate School by completing the Graduate Leave form. The Graduate School must receive the Graduate Leave form no later than the 10th day of class during the semester in which the leave is requested, unless the student is requesting EFML (Emergency/Family Medical Leave). If the student is not enrolled or in CDS, the student must follow procedures to either reenroll or reapply to their program before a graduate leave request will be considered. The leave must be approved by the student’s committee chair, program chair, International Programs (for international F-1/J-1 students only) and Dean of the Graduate School. A student may be on Graduate Leave for a total of up to one calendar year during their studies, but leave time may be extended for special circumstances (e.g., for military or Peace Corps service). Graduate Leave beyond one calendar year during a student's studies is not guaranteed. Graduate Leave entitles students to maintain access to library services if needed. At the end of the leave, the student will be able to reenroll for credits without completing the reenrollment form or paying the reenrollment fee. International students must submit information on their finances to the Graduate School if they require issuance of new immigration documents (Form I-20/DS-2019).

Students who have been on Graduate Leave Status for more than two consecutive semesters must receive School of Music’s approval for re-enrollment.
XXVI. SECOND MASTER’S DEGREE

Up to 11 hours of graduate credit which have been applied toward a master’s degree at Washington State University may be applied toward a second master’s degree. Such credit will be granted only for graded coursework earned at Washington State University and completed with a grade of “B” or higher. Application of such credit toward a student’s program for a second master’s degree is subject to departmental recommendation and approval by the Graduate School. No credit in 600- and higher-level courses completed before fulfillment of all requirements for the first master’s may be applied toward a second master’s degree program. The second master’s degree may not be awarded during the same semester or summer session that the first master’s degree was awarded.

XXVII. GRADUATE ASSESSMENTS PROCEDURES AND FORMS

In addition to receiving grades in university courses, graduate music majors receive assessments for their work. The following section contains the plan, forms and rubrics that are used by faculty in assessing students’ work. Rubrics related to each assessment may be obtained from faculty area coordinators.

Faculty and students should communicate regularly on the learning outcomes of these assessments. The Director of the School of Music produces a graduate assessment report annually that goes to the Office of Assessment and Innovation for the university’s NWCCU accreditation.

Any questions from students about their progress and assessment scores should be made to the faculty member who assigned the scores and/or the area coordinator for that respective assessment. The Director of the School of Music is also available at any time to answer questions related to assessments.

Historical Overview

The School of Music has offered a Master of Arts Degree for many years and has many successful graduate alumni who are active performing, recording and teaching around the world. The Master of Arts in Music may be earned through studies in the areas of music education, composition, music history and literature, conducting, and performance studies. Though selection of an emphasis is not required, four emphases are available: performance, composition, music education and jazz studies. The emphases in performance and composition are selected by students wishing to teach at the college level or intending to enter such professions as music performance, conducting, composing and arranging. The emphasis in music education provides advanced studies for experienced and prospective teachers. Students electing the jazz emphasis focus on one or more aspects of jazz music—performance, composition, arranging, pedagogy, or history for example—in preparation for careers in jazz. The program offers both thesis and non-thesis options, designed according to the goals of the student. Composition emphasis students must complete the thesis option.

The Master of Arts in Music degree offered by the Music Program is flexible and provides students the opportunity to develop a unique Program of Study to
satisfy individual interests and goals. The intention of the School of Music Program and its Graduate Faculty is to provide the best of instruction to our graduate students, maintaining the highest of standards.

Typically, the School of Music has between fifteen and twenty M.A. candidates. Many are supported by Teaching Assistantships.

**Program Mission Statement**

**Vision**

Music and its effective presentation are inextricable from the essential qualities of every world culture. WSU’s School of Music, long recognized for excellence in performance and pedagogy, will therefore contribute to the advancement of music through widely visible and impactful creative activity, scholarship and research in selected aspects of music. It will sustain such advancement of the field through preparation of the next generation of societal leaders whose involvement in music will range from appreciation of and support for music’s value and centrality to its creation in professional performance, composition, and music education.

**Mission**

The School of Music supports the university’s land-grant mission and tradition of service to society, while contributing substantially to the College Arts and Sciences in creative activity, research and scholarship towards improving Cultural Understanding and International and Intercultural Relations. The mission focuses on:

- Advancing the field of music through internationally/nationally recognized achievements in composition, performance, recording, articles, books, conference presentations, and leadership in music education.
- Providing students university-wide superior musical experiences and preparing future professionals in music for successful careers as performers, composers, music educators, scholars, and leaders in a global society.
- Contributing to the cultural life of the university and region through the regular presentation of inspired and meaningful musical events.

**Values**

- Essential to fulfilling this mission is our understanding that each facet of the study of music culminates in the creation and performance of music.
- The School of Music values the balance between individual instruction in private studio lessons and group instruction in ensembles as the most effective vehicle in partnership to achieving excellence in performance.
- Within the broad range of musical styles, the School of Music continuously develops its strengths in classical music and jazz, and explores the rich diversity of global music reflective of our contemporary world.
- The School of Music is dedicated to providing high-quality music education that values the global diversity of music, its cultures and the peoples from which it originates. It supports the integration of diverse
musical styles through outreach and educational programs, compositions, performances and presentations, recordings, articles and books.

Goals

- The School of Music will build on existing internationally recognized achievements in performance and composition while striving for sustained recognition of equal importance in all areas of the School.
- Engage in professional activity at international, national, regional and state levels, supporting the WSU mission of leading innovation and creativity.
- Recruit and train high-quality music graduate students for successful careers as skilled performers, composers and teachers at all levels (university, college, public/private schools and private studios).
- Teach students the knowledge and skills to be musicians and the pedagogical skills to pass this knowledge on to the next generation, including teaching about societies; culture and relationships; social, cultural, and psychological impacts on humanity; embracing diversity in the arts; outreach and engagement; transformative experiences; and creativity.
- Provide equipment, musical instruments, and facilities that are of the highest quality and meet the needs of an enterprising, technologically growing society.

Strategic Fit Within the University

The School of Music fits well strategically within the university and interfaces effectively with the university’s strategic goals. A number of SOM faculty have received significant recognition and all are working to achieve national and international preeminence in innovation, discovery and creativity; we are training students for twenty-first century careers in music by providing them with transformative experiences which prepare them to excel in a global musical environment; we are working to be leaders in local, national and global musical outreach; and we are embracing an environment of diversity, integrity and transparency, professionally, personally and musically.

School of Music Student Learning Objectives

1. Critical, Creative and Musical Reasoning
   This includes learning to analyze and interpret music, to express the composer’s intention, the character of the music and to convey the emotion of the work.

2. Quantitative and Symbolic Reasoning
   This involves taking the abstract symbols on the page and making musical sense of them, interpreting the rhythmic and pitch elements of the music and making expressive choices based on the notation on the page.

3. Information Literacy
   Musicians must understand the historical and cultural aspects of the music that they are performing to present a musically and artistically convincing
performance. Also, students must become familiar with a wide range of important works from the musical canon. Students are required to use several outside sources, including library and online resources, to gain this knowledge.

4. Communication
A musical performance is not successful unless there is communication with the audience.

5. Diversity
To perform music of different styles and genres, it is essential to understand diverse cultures and musical views. This is related to information literacy.

6. Integration of Learning
For a musical performance to be truly successful, all of these Learning Outcomes—creative thinking, symbolic reasoning, information literacy, communication and diversity must be integrated by the performer.

Assessment Plan
M.A. students in the School of Music are assessed in a number of ways.

Initial Assessments

Auditions and Interviews
As a potential graduate student in the School of Music, each student is required to go through an audition and interview process with the faculty from their instrument/voice area. During the audition, the faculty is able to assess each student’s knowledge and ability in performance, as well as related areas. Passing the audition confirms the applicant’s preparedness to perform at a graduate level, capable of enrolling in a 500-level ensemble.

Manuscripts, videotapes, written research and/or performance of a more comprehensive audition are required for acceptance into particular emphases—composition, performance (includes conducting), music education, or jazz studies—of the MA in Music.

Diagnostic Exams
All incoming graduate students must take diagnostic entry proficiency examinations in music theory (including aural skills), music history and literature, and piano skills. The results of these examinations are used to help plan each student’s course of study.

Intermediate Assessments

Assessment Forms
Every student enrolled in private studio instruction must complete a jury at the end of each semester of study for area faculty. At this time, students’ progress in the program is assessed via the Performance Assessment Form (including jazz performance) and any problems are addressed. Similar assessment forms are completed for students studying composition, conducting and music education. Numeric data is collected along with specific, written comments.
**Annual Review**
Students are reviewed by Faculty via the Graduate Student Review Form. Faculty complete these forms by submitting specific, written comments about students with whom they have been working. These written comments are shared with all SOM faculty via the School’s sharepoint site. The Graduate Program Coordinator collates this data and meets individually with all graduate students to share the information collected in the Graduate Annual Review process.

**Culminating Assessments**

**Final Assessments**
All graduate students are assessed on their final projects (MUS 700 or MUS 702), and on their performances in their required Masters Oral Exams. These assessments include numeric data and written comments.
Collection of Numeric Data

As described above, numeric assessment data is collected regularly in a variety of areas. Numbers are awarded on a six-point scale as outlined below. Faculty members provide numeric rankings and detailed, written comments in a number of categories. These categories vary somewhat by area, but are all tied to School of Music Learning Outcomes.

Numeric assessments are collected in a variety of categories in the following areas at the end of each semester of study (often in jury exams) and at final recital performances.

- Performance
- Composition
- Jazz
- Music Education
- Conducting

Numeric assessment data is also collected along with written comments at the following culminating experiences at the end of each student’s program.

- Oral Examination
- 700 or 702 thesis/project

Analysis of Numeric Data

Every semester, assessment numbers for all music students are saved in each student’s file and written comments are shared with students. Once a year, generally in the spring, all assessment data is assembled, collated and shared with all School of Music faculty via the School’s sharepoint site. After analyzing the data, faculty share their thoughts with the Graduate Program Coordinator and the Director of the School of Music. Faculty are encouraged to address any points raised by the data, including how well the assessments are working, and to make suggestions, if appropriate, for how to improve graduate education and the assessment system in the School of Music. The Director synthesizes these comments and suggestions and prepares the annual School of Music Report on Graduate Assessments to be submitted to the Graduate School.

Following are School of Music graduate assessment forms and rubrics.

ASSESSMENT RATINGS
Place one of these numbers in each box below

1 or 2 = Novice Graduate Student       3 or 4 = Developing Graduate Student       5 or 6 = Mastering Graduate Student

6 – A superior performance – outstanding in nearly every detail
5 – An excellent performance – minor defects
4 – An above average performance – accurate with developing interpretive skills
3 – An average performance – lacking finesse and/or interpretive skills
2 – A fair performance – basic weaknesses
1 – A poor performance – unsatisfactory

______Communicates effectively in oral form
______Demonstrates an advanced knowledge of music history, involving varying periods, styles, genres, and performance mediums
______Demonstrates advanced knowledge of music theory and form
______Demonstrates ability to integrate knowledge and skills from the specialty area and to apply such knowledge through problem solving

- 4 – An above average performance – accurate with developing interpretive skills
- 3 – An average performance – lacking finesse and/or interpretive skills
- 2 – A fair performance – basic weaknesses
- 1 – A poor performance – unsatisfactory

Demonstrates advanced knowledge and ability in the following areas:

- Tone Quality: consider resonance, control, clarity, focus, consistency, warmth (organ – registration)
- Intonation: consider accuracy of printed pitches
- Rhythm: Consider accuracy of note and rest values, duration, pulse, steadiness, correctness of meters
- Technique: consider attacks, releases, control of ranges, musical and/or mechanical skill
- Articulation: consider diction in voice, bowing in strings
- Interpretation/Musicianship: consider style, phrasing, tempo, dynamics, emotional involvement
- Literature: consider appropriateness of choices, difficulty
- Other Factors: consider appropriate appearance, poise, posture, stage deportment, general conduct, mannerisms, facial expression, memory (if required)

5 – An excellent portfolio – minor defects
4 – An above average portfolio – accurate with developing interpretive skills
3 – An average portfolio – lacking finesse and/or interpretation
2 – A fair portfolio – basic weaknesses
1 – A poor portfolio – unsatisfactory

Demonstrates advanced knowledge and ability in the following areas:

_____ Orchestration (use of instruments/ voices)
_____ Presentation (Professionalism, score clarity, software usage)
_____ Compositional Technique (voice leading, harmony, counterpoint, texture)
_____ Aesthetics/Creativity
_____ Literacy
_____ Musical Form

Comments:

Faculty Signature_________________________________________________________
From the Professional Dispositions Assessment (PDA) Form and Survey of Supervisors

______ Demonstrates strong knowledge of the subject matter and can explain important concepts and principles

______ Demonstrates strong knowledge of subject specific instructional strategies that draw upon knowledge and skills

______ Facilitates student learning of subject matter through presentation of the content in clear and meaningful ways

______ Participates regularly in class, is a leading contributor, shows respect for others.

______ Speaks and writes in a clear and organized fashion, uses language appropriately for context.

______ Listens and responds appropriately to others, uses feedback in a positive manner.

______ Reflects on information provided, demonstrates ability to synthesize and apply new ideas to own practice, demonstrates curiosity and willingness to learn.

______ Interacts with others appropriately and respectfully, recognizes the context of interactions, seeks and uses knowledge of diversity that contributes to effective interactions.

______ Shows willingness to consider multiple perspectives on social and institutional factors that can impede or enhance students’ learning.

______ Seeks pertinent information, synthesizes and learns new ideas and strategies, and uses information to solve problems both independently and with others.

______ Seeks theoretical knowledge and regularly connects theory to potential teaching practices.

______ Arrives punctually and prepared for classes and required activities, dresses appropriately for professional engagements, communicates professionally with others.

Plans for supervision:

Due dates, timetables:

Method of evaluation:

If a musical composition, give additional details:

The thesis major teacher will assign a grade after consulting with all committee members, usually during the final deliberations of the oral examination. Grades are S or U only. In case of work in progress but not completed by a semester’s end, a grade of X is given. The student may choose to re-enroll for additional credit in a subsequent semester, or may simply continue working to complete the project without re-enrolling. The X grade is replaced by S when the work is completed. The thesis must be acceptable for committee signatures of approval ten school days preceding the scheduled oral examination.
