

Introduction

Ask questions?

Why is this study of scientific interest ?

What are the research problems/research gaps ?

Why is this issue valuable to the specific disciplinary research?

Who is talking about the similar research issues ?

What are the key words in your research?

What is the most crucial points of interest under each key words?

What is the main research goal?

What are the research questions?

What are the specific research aims to reach to the main goal?

How will your research contribute in the specific field of interest?

Introduce your key words, research gaps, research goals, and future research outcomes.
