Quick Resource Guide
Research Addressing Health Professions Education

The College of Medicine provides a number of opportunities to conduct research addressing medical and health science education. This Quick Reference Guide provides basic information addressing research design, funding and methodologic/statistical resources provided by the Office of Research.

Research:
(i.e., a systematic investigation designed to develop or contribute to generalizable knowledge)

Quality Improvement (QI):
(i.e., data-guided activities designed to bring about immediate improvements in ESFCOM curricula education)

* This guide is meant for information purposes only. Any inquires regarding project compliance should be directed towards the WSU IRB
How To Get Assistance and/or Get Started

We offer consultation throughout the proposal development process. New investigators and/or proposals for pilot or demonstration projects are welcome.

Areas of consultation include:
- WSU’s Institutional Review Board (IRB) process
- Protocol development
- Ethical issues and subject consent
- Methods, measures, and analysis
- Funding opportunities
