Elson S. Floyd College of Medicine | Department of Biomedical Sciences

Biomedical Seminar Series Presentation

‘Early Detection of Tumor Relapse, Precision Medicine and Eradication of Undruggable and Incurable Oncogenic EGFR/K-RAS-Driven Malignant Cancer’

Presented by:

**Amy H. Tang, PhD**

*Professor, Cancer Biology at Leroy T. Canoles Jr. Cancer Research Center at Eastern Virginia Medical*

**Tuesday, May 11th, 2021**

12:10-1:00pm

Dr. Tang has witnessed the ineffective treatment regimens, dismal prognosis, and devastation of multidrug-resistant, incurable, late-stage, and metastatic human cancers firsthand in her patient cohorts. Dr. Tang has dedicated her scientific life to training her clinical residents, postdoctoral fellows, and MD/PhD/MS graduate students to conduct the highest quality research, and design innovative and breakthrough strategies to control and eradicate undruggable oncogenic EGFR/K-RAS-driven malignant and metastatic cancer in our lifetimes.
