TED ABEL, PhD
Graduate Research Associate, Hoerndli Lab in the Department of Biomedical Sciences, Colorado State University

Tedd Abel, PhD is the Director of the Iowa Neuroscience Institute, Roy J. Carver Chair in Neuroscience, and Chair of the Department of Neuroscience and Pharmacology in the Carver College of Medicine at the University of Iowa. He is a member of the National Academy of Medicine and a fellow of the American Association for the Advancement of Science. His research focuses on the molecular mechanisms of memory storage and the molecular basis of neurodevelopmental and psychiatric disorders. He has been a pioneer in the use of molecular and genetic approaches to define how neural circuits mediate behavior, including identifying the molecular impact of sleep deprivation on neuronal function.
