THE PROFESSORIATE

Section A. The Faculty

1. The Faculty consists of all full-time and part-time Full Professors, Associate Professors, Assistant Professors, and other faculty titles on tenure track, career track, or short term track, as defined in the WSU Faculty Manual. Faculty includes those serving as preceptors, clerkship directors, clerkship faculty, and other members of the academic and administrative staff within the College of Medicine (paid and non-paid), as well as those with the title of Emeritus.

2. Persons appointed to a faculty position must possess appropriate academic degrees, typically terminal degrees, or be otherwise appropriately credentialed, demonstrate achievements within their disciplines, demonstrate the capability and continued commitment to be effective teachers and/or have a commitment to continuing scholarly or clinical work.

Section B. Jurisdiction

1. The Faculty constitutes the basic legislative body of the college, subject to the Faculty Manual of the University and the regulations of the Washington State University Board of Regents, state law, and accreditation requirements, and therefore has jurisdiction in all educational and academic matters within the purview of the College of Medicine, including oversight of its curriculum, and its admission and graduation standards.

Section C. Faculty Appointment, Promotion, and Tenure

1. Provisions

   a. Members of the College of Medicine Faculty will have their primary appointment in only one academic department within the College. This does not preclude, however, a member of the Faculty having a secondary appointment in another College of Medicine department or in another college or department at WSU when such a dual appointment will serve to enhance the educational or research programs in the second department. When such an appointment is made, the academic rank conferred by each of the departments will be the same.

   b. If a tenured member of the College of Medicine Faculty holds an administrative position for which an administrative stipend is a supplement to the faculty salary, tenure will extend only to the portion of the salary provided as a member of the Faculty.
i. Administrative positions are contracted for a fixed period of time; tenure does not apply to administrative positions.

2. Procedures

a. The appointment process, at minimum, involves the prospective faculty member, the Department Chair, and the Dean, and complies with university and college appointment policies and procedures.

b. Upon appointment, faculty members are informed in writing by their Department Chair or immediate supervisor of college policies on assignment of responsibilities, evaluation, renewal of appointment, promotion and/or granting of tenure, and dismissal, as stated in the Faculty Manual and in the college’s faculty appointment policy and promotion and tenure policies.

c. Promotion to Associate Professor or Professor, for all faculty tracks, will be initiated by the submission of a recommendation per the procedures outlined in the WSU Faculty Manual, with documentation, to the Dean.

d. The Dean will transmit all such materials to the Faculty Rank, Promotion, and Tenure Committee for its consideration and written report.

i. The Faculty Rank, Promotion, and Tenure Committee submits its recommendation for tenure and/or promotion to the Dean for review. After submission to the Dean, tenure and/or promotion cases follow procedures outlined in the Provost’s Guidelines (Procedural Reminders for Chairs and Deans).

Section D. Elections

1. General elections

a. Elections will take place annually to elect 1) members for the elected positions of the College of Medicine standing committees, 2) members of the college Faculty Council Executive Committee (FCEC) and 3) college representatives to the WSU Faculty Senate.
