LEARN FROM PROFESSORS WHO GO THE EXTRA MILE FOR YOU

Katie Doonan
BASIC MEDICAL SCIENCES, ORGANIC AND SUSTAINABLE AGRICULTURE | SENIOR | BISHOP, CA

Katie has always been fascinated by human health and the hands-on science of food production—hence her unusual double major.

Her advice to new students? Talk to your professors. Showing up at office hours and asking questions led her to a summer internship, a mentored position in a professor’s lab, and a job on the University’s cutting-edge organic research farm.

Katie is still deciding whether she wants to go to medical school or continue studying agriculture in grad school. Either way, she aims to keep her feet on the ground and her hands in the soil.

“WSU was the only school that truly listened when I told them what I wanted to do. They said ‘Yep, we can make that happen for you’ instead of telling me what I should do.”

BUILD REAL-WORLD SKILLS BEFORE YOU GRADUATE

Lars Neuenschwander
BIOENGINEERING, SPANISH | CLASS OF 2019 | PULLMAN, WA
A summer volunteering in “the FIZ”—a maker-space open to all WSU students—ignited Lars’ passion for bringing engineering and human health together.

He took entrepreneurship courses, mentored new students, studied abroad, and joined a professor’s research team. For his senior project, he helped create a handheld device that revolutionizes screening for autism spectrum disorder—and won a $10,000 prize in a national competition.

Having graduated in May, he’s now focusing on bringing his invention to the market.

“I want to change the world by being a physician who cares for patients with the cultural awareness I gained while studying abroad.”

HANDS-ON LEARNING EXPANDS YOUR WORLD
Shanelle Briggs
BASIC MEDICAL SCIENCE & SPANISH | CLASS OF 2018 | OLYMPIA, WA
Shanelle translated and assisted with medical procedures during two WSU volunteer trips to Guatemala—an experience that inspired her goal of bringing medical care to people in developing countries. Now she’s in medical school, studying in a prestigious global health program.

PRE-HEALTH & PRE-LAW
Professional schools of health and law don’t prefer or require any particular major—just choose a major you enjoy and can do well in.

Professional schools in health care do require specific prerequisites, however.

For WSU Pre-Professional Student Center and Pre-Law Resource Center help you get the right prerequisites and prepare for the school of your choice.

**LIFE ON CAMPUS IS ALL ABOUT YOU**

**Brooke Keniston**
ZOOLOGY | JUNIOR | PHOENIX, AZ

**Kiara White**
SPEECH-LANGUAGE PATHOLOGY | SOPHOMORE | FONTANA, CALIFORNIA

Brooke and Kiara, roommates in Northside Hall, came to WSU from very different places. Kiara chose WSU because she was ready to experience someplace new. Brooke came to WSU because she loved the small-town location and the strong life science programs. They both found common ground—and a lot of new friends—by jumping into campus life together.

---

“Go ahead and try something new. You never know what might happen.”
- KIARA WHITE

“I love the friends I’ve made here. I also like that WSU has so many activities for students.”
- BROOKE KENISTON
