

Physics & Astronomy Colloquium

Presents

Wolfgang Altmannshofer

Associate Professor
University of California, Santa Cruz

Thursday, January 11, 2024
12:10 pm, Webster Room 11

This is a remote talk.

“A Theory Perspective on Particle Physics”

The goal of particle physics is to identify the most fundamental building blocks of matter and understand how they interact with each other. In this colloquium I will attempt to summarize our current understanding of particle physics as well as many of the questions that are still unanswered. I will also discuss possible future particle colliders and what we might learn from such machines.

Host: Dr. Guy Worthey
