

State Of The Department

Dr. Brian Saam

Chair of the Department of Physics & Astronomy,
Washington State University

This will not be in any way a technical physics/astronomy colloquium but rather is intended as a kick-off event for the academic year. It will feature introductions, acknowledgments and recognitions, a brief statement about my priorities for the upcoming year, and where I see the department going this year and beyond. It would be fantastic to have as much of our entire team present for this as possible, so I would like to personally invite the entire department-- faculty, staff, grad students, and undergrad students; I will leave time for questions, concerns, and the hurling of tomatoes, as appropriate.

Thursday, August 30, 2018
4:10 pm, Webster Room 17

*Please meet our guest speaker and share in refreshments,
3:45-4:10 p.m. in the foyer on floor G above the lecture hall*
