

"I share my pronouns because I don't want anyone to feel unsafe or unwelcome and I think this helps."

"I don't like when people assume my gender because on how I look or sound or dress. It feels *good* when people get my pronouns right."

Why share pronouns?

We often make assumptions based on how someone looks, sounds, behaves and more, but people express their gender in many different ways. Sharing your pronouns makes 4-H a more welcoming place for people of all genders and expressions.

In support of 4-H's mission, positive youth development, and federal law, **4-H is open to ALL.**

"I think it's easy to guess my pronouns correctly, but sharing them helps everyone feel included and respected."

"4-H is a place where I get to be myself. I want everyone to have the same opportunity."
