(Note: registrants will first fill out a Qualtrics survey, then be directed to the website for payment)
Celebrate 4-H Youth – Next Week Is National 4-H Week!

National 4-H Week is October 4 – 10: The theme is Opportunity4All

This important week provides a platform to highlight the remarkable 4-H youth in our communities and showcase the incredible experiences that 4-H offers young people!

Youth Biosecurity Webinar Set for October 1

Join us on October 1 at 7:00 pm EDT / 6:00 pm CDT / 5:00 pm MDT / 4:00 PM PDT for the first in a series of conversations on youth biosecurity education. This session features the online Healthy Farms Healthy Agriculture biosecurity learning modules for youth which come with an array of resources for educators in a variety of settings from 4-H projects, to FFA programs, to other high school or college agriculture courses. The goal of the October 1 session is to introduce the
online learning modules, help you understand how to implement them in programs with youth, and connect you with ongoing support during the process.

**Click here to register for the Youth Biosecurity Education webinar.**

Dates for future Youth Biosecurity Education webinars during October 2020 are below:
- October 8
- October 15
- October 22
- October 29

Washington State Team Participates In 4-H True Leaders in Equity Institute!

The 4-H National True Leaders in Equity Institute for 2020 went virtual September 11-13. A Washington State team of youth and adults was accepted to this year’s institute. Youth attendees Macline Noel of King County (lower right, below) and Natalie Dick of Yakima County (lower left, below) were chosen as a team, alongside Ju Namkung (upper right, below), a 4-H volunteer leader, and Anna Kitchin (upper Left, below), King County Extension SNAP-Ed Coordinator.

Alongside over a dozen teams chosen from around the country, the Washington participants explored how diversity can be supported in the 4-H Youth organization. The team will continue their work throughout the 4-H year with the support of the National 4-H Council. The specific project they will develop and implement explores racial equity and inclusion in 4-H.

National True Leader in Equity Ambassador Mayyadah Zagelow of King County was also a guest speaker at the institute, presenting a youth TED talk on LGBTQ+ inclusion.

Congratulations to all our Washington Equity Change-makers!

4-H Youths Show They’re Outstanding In Their Field – Virtually!!

2020 Virtual Horse Bowl

Congratulations to the 24 participants from five Counties who participated in the 2020 Washington State Virtual 4-H Horse Bowl Contest on August 29. It was a challenge to conduct a virtual contest; however, all participants, coaches and officials did a magnificent job!

Thank you to all the officials for their contributions with special appreciation to our Tech Support of RA Mazzola and Erika Kapur, who really made it possible. Ann Vonderau was the Senior Moderator, Kim Baker was the Intermediate Moderator, Katie Huston was the timer, and Jennifer Leach was the judge. Prior to the contest, there were multiple opportunities for coaches and team members to practice with the virtual format; again, thanks to our tech support and officials making time to provide this assistance. Thanks also to Pat Pehling, our statewide volunteer for Horse Bowl. It was all a team effort and a great example of equine science knowledge. Our state 4-H program leader, Dr. Nancy Deringer, was able to observe the contest and was very impressed with the level of knowledge of all the horse members that participated. This is what equine science is all about!!

Horse Bowl Results:

Thurston – Molly Pestinger
Spokane – Angie Bosworth

Submitted by Jennifer Leach, WSU Extension Faculty and Pat Pehling, Statewide Horse Bowl Volunteer Coordinator.

2020 Equine Presentation Contest

Congratulations to the senior 4-H members who participated in the virtual Equine Presentations Contest that was just completed on Saturday, September 19th. This was considered a State Fair activity, which will include ribbons and premiums from 4-H State Fair.

Equine Public Presentations are much different than other 4-H Public Presentations, as the topics/subject must pertain to the equine industry and each contest has very defined time constraints and penalties. Presentations not appropriately related to the equine industry can be disqualified at the discretion of the judges.

The Equine Public Presentations competition is comprised of three contests:

- Public Speaking
- Individual Presentation
- Team Presentation

Public Speaking: Speeches should be 7-10 minutes in length. Three points will be deducted from the total score on each judge’s score sheet for every minute (or fraction of a minute) under 7 minutes or over 10 minutes.

Individual Presentations should be 9-12 minutes in length. Three points will be deducted from the total score on each judge’s score sheet for every minute (or fraction of a minute) under 9 minutes or over 12 minutes.
Team Presentations should be 10-15 minutes in length. Three points will be deducted from the total score on each judge’s score sheet for every minute (or fraction of a minute) under 10 minutes or over 15 minutes.

The respective 4-H members are judged against a standard and scoring rubric of 100 points related to presentation format; visual aids; knowledge of subject matter; delivery; credit/content; and ability to answer questions. As usual, the Danish system of ribbon placing will be used of blue, red, or white. Blue means “excellent”; red is “average”, and white “needs improvement.”

This contest is also very unique because three or four judges will be used and judges will score each entry independently and assign scores. After all presentations are presented and scores are tabulated, judges may confer and discuss evaluations. Each judge assigns his or her final scores. The top three judge’s cumulative final scores are tabulated to determine the final placings.

Equine Presentation Results

First Place Individual was Katie Pestinger from Thurston County with her presentation on “The History of Dressage: From the Battlefield to the Olympics”. Katie received a blue ribbon, champion rosette, and a gold medal.

Second Place Individual was Navi Islam-Zwart from Spokane County with her presentation “Equine Ulcers”. Navi received a blue ribbon along with a reserve champion rosette and a silver medal.

Third Place Individual was Dakota Kent from Snohomish County with his presentation about “Equine Nutrition”.

In Team Presentations the blue ribbons went to Charlotte Pestinger and Baeya Kardokus for their presentation on “Horses in Film”. They received champion rosettes and gold medals.

All of these presentations were very well done, informative and reflective of the horse industry per the comments from the panel of three judges. For more information about Equine Presentations, please feel free to contact Jennifer Leach, WSU Extension Faculty at jleach@wsu.edu.

2020 Washington State 4-H Horse Judging Contest

Congratulations to the 65 participants from nine counties who competed September 12th in the Washington 4-H Horse “Virtual Judging Contest” hosted by Purdue University. Thank you to the coaches who helped prepare their county 4-H members and to Kim Baker, Snohomish County Extension Staff, who handled registration and assisted members in creating accounts and navigating the actual contest! Thanks also to Pat Pehling, Volunteer State Horse Judging Coordinator, for being part of the “Virtual Implementation Team”. Pat helped in aspects of securing awards and getting awards distributed, and also the decision making in support of the contest. It is another great example of the work of volunteers that
provide the energy and passion to our Washington State 4-H Horse Program! For awards, the top three teams will receive Patches, Top Ten Individuals and Top Reasons will receive rosettes, Top three Individuals will receive medals, all of which will be mailed to coaches or County Offices for distribution. Medals are sponsored by the Snohomish County 4-H Horse Program; other awards were made possible by entry fees.

### 2020 State 4-H Hippology Contest

A full six months after the initial contest date that was not once, but twice rescheduled (first due to COVID-19; then due to technical difficulties), on September 12th eighteen youths representing four counties were finally able to exhibit their horse knowledge and compete in the 2020 Washington State 4-H Hippology Contest. In a time where we face challenges keeping youth involved in virtual activities, these contestants and their coaches willingly continued to dedicate themselves to study, albeit far longer than they originally anticipated! We are so proud of their efforts and accomplishments! Thank you, coaches, for hanging in there and continuing to provide the support our youth needed to have this opportunity.

Congratulations to all contestants and their coaches!

Many thanks to Dr. Colleen Brady at Purdue University and her team for creating, facilitating, and hosting the Washington State 4-H Hippology Contest on their Hippology Academy campus.extension platform.

Finally, a most appreciative thank you to Kim Baker, Snohomish County 4-H Program Coordinator, for her strong leadership and organizational skills in implementing this virtual contest and for pursuing this opportunity. It is the efforts of our volunteers and key staff that ensures the success of this virtual horse contest. This a great example of collaboration and planning.

For more information about planning and implementing your own county contest-please reach out to Kim Baker at kim.baker@wsu.edu.

Youth Ages 16 to 24 – Apply to Join the Youth Engaged 4 Change (YE4C) Editorial Board!

Great news! Applications are now being accepted for youth ages 16 to 24 to join the Youth Engaged 4 Change (YE4C) Editorial Board!

Editors help us address the issues that youth care the most about! They write, develop, and review content for the YE4C website, social media, and other digital media (like podcasts and videos). YE4C Editorial Board members join virtual meetings to discuss issues that matter to young people. They also work alone and in teams to review content and to create content for youth. Members are expected to contribute 5 hours per week for 10 months on content development, providing feedback, and participating in meetings. Ideal candidates care about improving their lives, care about helping others, and are excited about doing both via YE4C.

Past members have appreciated the opportunity to balance independent and shared work with other young people across the country. We are looking forward to making that happen with this next group as well. We will also be introducing Editorial Board members to leaders in the federal government to give them an opportunity learn more about the federal government and career paths that may interest them. We will also provide honoraria up to $1,000, YE4C swag, and a write-up on the YE4C Blog.

Visit the YE4C website to learn more.

Apply HERE.

Operations Contingency Plan Templates for Horse Farms in the Event of Covid-19 and Other Emergencies Now Available From the University of Minnesota Extension

The University of Minnesota Extension Livestock Team has released a set of customizable forms that can be used to create an operations contingency plan for livestock owner’s farms. The contingency forms are meant to provide livestock owners a starting point to outline essential livestock care if they and/or their managers become sick with COVID-19 or another emergency occurs. In these situations, care would likely need to be administered by a non-household member. The contingency plan is meant to cover short-term (e.g. 30 days), essential care only and is not meant to serve as a comprehensive care plan. The intended use of these forms is for emergency planning purposes.

Operations contingency plan templates for both privately owned horse farms and boarding or training horse farms are available on the Extension Horse Website [https://extension.umn.edu/horse/horse-ownership#horse-operations-contingency-plans-1599014](https://extension.umn.edu/horse/horse-ownership#horse-operations-contingency-plans-1599014).

Forms (fillable PDFs) must be first downloaded and saved to a computer, and then can be completed and printed. Templates are also available for dairy, beef, swine, poultry, honeybee, and small ruminant operations on the Extension website: [https://extension.umn.edu/livestock-operations/preparing-livestock-emergencies](https://extension.umn.edu/livestock-operations/preparing-livestock-emergencies).

IMPORTANT REMINDER Regarding WSU Extension Adult/Youth Interactions during COVID-19

As we are all in communication via technology with youth at this time, I would like to take this opportunity to remind everyone of WSU Extension’s policy on interactions. **Under this policy, AT NO TIME should one adult be meeting or communicating with youth WITHOUT the presence of another adult.** This policy pertains to Zoom conferences, telephone conversations, text messages, social media posts, etc. To facilitate communication, make certain to cc another adult on written communications, and invite another adult to be present during virtual meetings. The second adult is recommended to be a WSU volunteer; other adults can serve in this role if you’re in a pinch.

National 4-H Council Shares Survey on COVID-19 Effects on Youth Mental Health and Loneliness

A new survey commissioned by National 4-H Council, and conducted by the Harris Poll, finds that 7 in 10 teens are struggling with their mental health in the wake of COVID-19. More than half of those surveyed shared that the pandemic has increased their feelings of loneliness, with 64 percent believing it will have a lasting impact on their mental health. The survey, conducted in May 2020, is among the first to examine the impact this unprecedented public health crisis has had on U.S. teens. The aims of the survey are to help practitioners gain a deeper understanding of the state of teen mental health and to gather teen perspectives on the issue as 4-H aims to empower young people with the resources and support to address their health and well-being head on.

Everyday Actions to Help Prevent the Spread of Respiratory Viruses

Here are everyday actions to help prevent the spread of respiratory viruses:
· Wash your hands often with soap and water for at least 20 seconds. If soap and water are not available, use an alcohol-based hand sanitizer.
· Avoid touching your eyes, nose, and mouth with unwashed hands.
· Avoid close contact with people who are sick.
· Stay home when you are sick.
· Cover your cough or sneeze with a tissue, then throw the tissue in the trash.
· Clean and disinfect frequently touched objects and surfaces.
A WSU hand-washing video can be accessed [here](#).
