4-H UPDATE – GOVERNOR INSLEE’S VACCINATION PROCLAMATION

Announcement Revised September 7, 2021

Governor Jay Inslee issued a health and safety proclamation on August 20, 2021, in response to a continued state of emergency that exists in all counties due to the Covid-19 pandemic. The health and safety proclamation, as ordered by the Governor, includes employees, contractors and volunteers engaged in activities with state agencies and in educational settings. **Therefore, WSU (including WSU Extension and the 4-H program) is required to comply with Governor Inslee’s recent vaccination proclamation directives.**

With regard to volunteers, below are a series of references, deadlines and explanations that provide further details.

- **The Proclamation (21-14.1) can be found [HERE](#).**
- **Deadline:** All current WSU Volunteers are required to be fully vaccinated or exempted by October 18th. Volunteers who are not fully vaccinated or who do not have an approved exemption on file by October 18 will be put on inactive status. They will not be able to engage in any volunteer activities with WSU Extension until proof of full vaccination can be observed or until an exemption request has been reviewed.
- **Proof of vaccination:** Contact your local 4-H office for information on how to share proof of your vaccination status.
- **Exemption process:** The state-level exemption process (for religious or medical reasons) can be found at <https://extension.wsu.edu/volunteer-exemption/>

More information on WSU’s Vaccination Policy is available on the web at <https://extension.wsu.edu/vaccination-policy/>.

Questions regarding WSU’s Vaccination Policy can be directed via e-mail to extension.vaccinepolicy@wsu.edu

COVID-19 HEALTH AND SAFETY PROTOCOLS

All other protocols for health and safety remain in effect and should be followed. The Washington State 4-H Youth Development Program policy is referencing requirements set forth by the Washington State Department of Health's K-12 COVID-19 Requirements for Summer 2021 and the 2021-2022 School Year document. **WHILE INDOORS, EVERYONE IS REQUIRED TO WEAR MASKS, REGARDLESS OF VACCINATION STATUS.** This policy is required to protect the safety of all and to model the behavior for youth, who are still required to wear masks.

If an activity is conducted outdoors, it is now required that masks be worn in any outdoor setting involving 500 or more people. People should continue to practice physical distancing of at least six feet whenever possible.

Your county may have more protective protocols in place. County protocols supersede the information presented here. Please contact your local County Extension 4-H Office with any questions.

The Washington State Department of Health released a recap of recent COVID-19 news and updates on September 7, 2021. It is available by clicking [HERE](#).

WSU CAHNRS Corner for Tuesday, November 16 *New WSU CAHNRS Virtual Information Sessions Available!*

Elizabeth Perez, Director, Recruitment and Retention, CAHNRS

Hello, Washington 4-H Community!

Washington State University's College of Agricultural, Human, and Natural Resource Sciences (CAHNRS) offers live, virtual information sessions for anyone interested in learning more about our majors and resources for future Cougs. We've added additional dates. We hope to see you there!

From National 4-H Council....

A VOICE OF ANIMAL NATION

As a member of the Rosebud Sioux Tribe and a South Dakota 4-H'er, Tashina Red Hawk makes a difference for the animals and families living in her community every day. With the leadership skills and fearlessness gained through 4-H, she makes affordable pet and animal care accessible for those living on the Reservation. This Native American Heritage Month, learn more about the 4-H Youth in Action recipient and her passion for being the “voice of animal nation.”

4-H Creates a Positive Future for Washington Youth

By Vicki McCracken, Nancy Deringer and Mike Gaffney

Special to the Spokane Spokesman-Review; November 7, 2021

Washington State University 4-H has a long and impactful history in Washington.

Formed originally to provide high-quality, research-based, positive youth development, 4-H has never strayed from that mission. The number and types of opportunities for engagement and access to positive youth development programming have expanded significantly over the years. That expansion took place to reflect changes in technology and scientific developments, and to provide a greater variety of opportunities for youth, wherever they might live.

4-H is the largest youth development program in the world. Created nationally in 1914, 4-H is delivered through a federally recognized partnership between U.S. land-grant universities, Cooperative Extension, National 4-H Council, states,

counties, and the U.S. Department of Agriculture. The multilevel value of 4-H is well-recognized statewide among the organization's members, volunteers, leaders, alumni and all who've had contact with and connection to the program.

In Washington, the WSU Extension 4-H Youth Development Program delivers a wide array of educational, research-based programs focused on small and large animal care, agriculture, engineering and technology, leadership, public speaking, creative arts, photography, horsemanship, livestock production, shooting sports, music, sewing, robotics and consumer sciences for youth in rural, urban and suburban communities.

4-H is intentionally accessible for all youth. Under our federal sponsor's auspices, and faithful to our land-grant mission, 4-H is a nondiscriminatory program that is a home for youth from all walks of life wanting to be connected and involved.

We make impacts at the individual and the county levels because we're supported by faculty and staff who bring the knowledge base and administrative support of WSU to our program. WSU Extension 4-H uses a large force of dedicated volunteers to bring research-based knowledge to youth and adults.

In each of Washington's 39 counties and two tribal communities, the local WSU Extension office coordinates 4-H programming along with a spectrum of other activities and programs, which collectively bring as much as a 3-to-1 return on the investment of county funds contributed to support our offices. Other support comes from WSU state funds, from Federal Smith-Lever (USDA) funding, from grants, and from donations from our many alumni and supporters.

4-H's many positive effects include individual benefits and positive societal impacts as well. As verified by national studies, 4-H youth are twice as likely to participate in STEM activities and make healthier choices, and are four times more likely to be involved and give back to their communities. Girls in 4-H are three times as likely to take part in science programs, compared to girls in other out-of-school activities. 4-H participants are more likely to become productive members of society and are less likely to interact with the criminal justice system.

4-H has a remarkable list of successful alumni including more than 80 members of Congress, four first ladies and six astronauts. Four current Washington members of the U.S. House of Representatives, including Cathy McMorris Rodgers and Dan Newhouse, are 4-H alumni.

4-H members learn how to set goals, manage time, keep records, and run a meeting. They learn about scientific processes to further their understanding and make better decisions on how to use technology, how to care for an animal, and to care for their own minds, bodies, and communities. When a 15-year-old girl successfully raises and sells a pig, or a 10-year-old boy experiences a team win in a national robotics competition, they realize that they can succeed.

Since 2018, 4-H members in Central Washington have led digital skills training for adults in their community through the 4-H Tech Changemakers project. Their project boosted intergenerational connection while helping teach valuable digital tools that adults need to pay bills, visit a school portal, or find needed services. Participating teens realize that they can make a difference.

Similarly, 4-H teens in Spokane County and other areas of the state this year helped their peers learn about the opioid crisis in partnership with WSU's Center for Rural Opioid Prevention, Treatment, and Recovery (CROP+TR). Youth interviewed experts and first responders, and shared their research with the wider community.

"I'm going to keep doing my part by helping people learn to be more compassionate and give that helping hand," one participant shared.

We're proud of Washington State 4-H, and of the sheer volume of positive impact it has on youth and communities across the state. If you are interested in learning more about 4-H, contact your local county Extension office to be put in touch with a program coordinator or county director.

Vicki McCracken is associate dean and director of WSU Extension. Nancy Deringer is director and state program leader for 4-H Positive Youth Development. Mike Gaffney is assistant director of WSU Extension.

Washington State Fair Foundation Scholarship Applications Open November 1!

The Washington State Fair Foundation is pleased to present scholarship opportunities to local students for continuing education. 4-H member students may be eligible for some of these opportunities.

BLUE RIBBON SCHOLARSHIP APPLICATIONS FOR 2022 WILL BE OPEN NOVEMBER. 1, 2021 THROUGH JANUARY 21, 2022.

Go to <https://www.thefair.com/foundation/scholarships/> and click any of the scholarships listed to see specific qualifications, or apply directly at: <https://thefairfoundation.awardspring.com>.

Students only need to submit one application for all scholarships offered online. The application system will automatically apply students for the scholarships they qualify for.

For any Scholarship questions, please email kima@thefair.com.

Teen Advocates Needed for Suicide Prevention Task Force!

Are you a teen interested in becoming an advocate for suicide prevention? Join our WSU 4-H teen task force!

See the flyer linked below for details. All 4-H youth aged 13-18 are welcome to apply. If you are interested in applying to the task force, you can do so [here](https://wsu.co1.qualtrics.com/jfe/form/SV_bCratMSux2hfmxE) (https://wsu.co1.qualtrics.com/jfe/form/SV_bCratMSux2hfmxE)

[**Suicide Prevention Taskforce Flyer Link**](#)

Join the 4-H Fair Board! Apply by December 1!!

It was a warm Sunday afternoon with a slight breeze. The public presentation about how to clean a saddle had just ended and the annual 4-H Fashion Revue was about to begin. You could hear the sheep bleating in the distance and the cows mooing. Record times were being displayed as the horse gamers completed their runs.

These are just a few of the activities put together by the State 4-H Fair Board under the leadership of Tom Gwin, 4-H Fair Manager. The State 4-H Fair operates within the Washington State Fair in Puyallup every year during the month of

September. The fair board works all year to provide our youth a venue to showcase the results of their year-long efforts and hard work with their 4-H projects.

The Fair Board's goal is to provide a memorable and positive experience for all our state 4-H youth. Putting on a successful fair is a huge undertaking, and this year was particularly challenging with COVID and the constantly changing policies to keep our youth safe. But seeing them reach their goals and feel the reward of achievement made it all worthwhile!

If this kind of challenge and undertaking sounds interesting to you as a volunteer or leader, consider joining our board either as a one-year appointee or a full three-year member. Applications may be found on our WSU 4-H website. Applications are due by December 1 to the Washington State 4-H Fair, PO Box 1225, Puyallup WA 98371.

Join the State 4-H Advisory Board!

The State Advisory Board is a place to share ideas in the 4-H world. Adult and teen positions are available in all four districts around the state.

Applications for appointment to the board are accepted through December 1st.

Applications can be found here: <https://extension.wsu.edu/4h/state-advisory-board/>

APPLY TODAY!
