

## Junior 4-H Garden Inspections

---

- 1. Is thinning and spacing good spacing for crop?*
- 2. Are weeds less than 10 per 3' of row?*
- 3. Walkways in garden spaced wide enough to prevent crushing adjoining plants?*

### Questions

- 1. Give 3 types of cool weather crops, broccoli, radishes, cauliflower.*
- 2. Name 3 beneficial insect, arachnid or annelid in the garden. Lacewings, spiders, butterflies, praying mantis, fireflies, bees or earthworms.*
- 3. Why is it important to rotate the plants in the garden? Prevent possible diseases, soil nutrients, similar plants need similar growing conditions.*
