June 2019

FOCUS ON THE ESSENTIALS: MASTERY

By being intentional with reflection and goal setting, youth involved in 4-H master a variety of skills. This summer create opportunities for youth to communicate their skills and knowledge in front of others. Encourage older members to practice demonstrations in front of younger members or take on leadership roles for special club projects or lessons.

Youth in Animal Agriculture: Excellence in Exhibition Trainings

While raising and showing animals have an overall positive impact on youth and the community, there are many animal diseases that can be spread between people and animals. Understanding disease risks and preventive measures is critical to reduce the occurrence of zoonotic diseases among youth associated with animal agriculture. Two **free** online courses, one for elementary aged youth and one for middle-high school aged youth, are meant to encourage showmanship and animal involvement while keeping both animals and humans safe and healthy. www.cfsph.iastate.edu/YouthInAg/

2019 4-H NATIONAL YOUTH SCIENCE DAY (NYSD)

The 2019 4-H NYSD challenge, *Game Changers*, teaches kids how to use computerscience (CS) to create games and engage with topics they care passionately about. Developed by Google and West Virginia University Extension Service, and with support from our national partners Donaldson, HughesNet, Lockheed Martin and U.S. Air Force, *Game Changers* is a collection of three activities that teaches kids CS skills through game play, puzzles and animation.
