

Growing Groceries Program 2019-2020 Classes

LEARN the latest research-based practices for planting, growing, and harvest success.

NETWORK with Growing Groceries resources and community while learning to grow healthy food for your family.

GROW your garden and help your family and friends increase access to fresh, healthy food.

Topics include:

- Soil health, amendments, soil testing
- Developing/maintaining healthy soils
- Crop rotation, succession planting
- Starting seeds and growing transplants
- Growing vegetables A-Z
- Irrigation and weed management
- Non-toxic pest management
- Growing berries and other small fruit
