

Become a Beach Naturalist

Wednesdays, May 9 and May 16
AND Saturday, May 19
From 9 AM — 4 PM each day
Field Trips Included!

**Curious about life on the beach?
Like to share what you know?**

Take 20 hours of training with WSU Extension Beach Watchers to learn about how marine life survives the ever-changing beach environment and how to share your new knowledge with the public. Then, volunteer 14 hours (4 shifts) with Beach Watchers this spring and summer as we teach school children and beach visitors in the Edmonds, Mukilteo and Stanwood areas.

The **training location** will rotate between Everett, Mukilteo and Edmonds.

Applications are due on April 25th and there is a \$35 materials fee. All participants must fill a free background check form on the first day of training.

For more information, contact Chrys Bertolotto at (425) 357-6020, chrys@wsu.edu or visit <http://extension.wsu.edu/snohomish/naturalresources/beachwatchers>
