

August 7, 2020

Hello 4-H Community,

We hope you are all well. Virtual programming is chugging along in many programs, and we want to highlight the Technology Program Minecraft project! They have an update about the virtual program they have been working on. If you are interested in joining the Technology Program Minecraft project, please email Ashley ([a.hernandez-hall@wsu.edu](mailto:a.hernandez-hall@wsu.edu)).

*To all you 4-H'ers out there! Barn 105 is nearing completion! What, you might say? Barn 105 has been around for a while, what are you talking about? Well Minecraft of course! Our 4-H youth have been busy and are nearing completion of the Barn as part of a project to create the Evergreen State Fairgrounds in a Minecraft World.*

*It all started with laying the corner for the fairgrounds and getting our bearings on what to build, what materials to use and establishing the layout for the barn complex including the arena. We then built the foundation and laid in the walls. Now we have the arena, the first Barn and even the soiled bedding stations! Take a look at the great work so far both exterior and interior of Barn 105. Great job to the 4-H Youth!*

We are working on a webpage to host content that showcases what all our programs and projects have been working on, so please send us your project, club, or program virtual programming updates (including pictures, video links, posters, artwork, etc.) via email [snoco.4h@wsu.edu](mailto:snoco.4h@wsu.edu) and we will share your awesome content with the world!

Speaking of virtual programming, our educational poster contest sponsored by the 4-H Council has begun. We are accepting entries until August 31<sup>st</sup> and there are cash prizes for juniors, intermediates, and seniors! We hope you will enter your awesome information poster! You can find the instructions here: [Info Poster Contest](#)

Donations from the public are pouring in to support 4-H youth with animals. If you need feed or supplies for your project animals, please take advantage of our community's generosity. You can participate in the following ways:

- a. Fill out a card in store: Snohomish Co-op, Monroe Co-op, Dayville Hay and Grain, Bothell Feed, Everett Co-op, Marysville Co-op, Arlington Co-op, Granite Falls Co-op, and Rodeo Downs.
- b. Apply online: [Feed Assistance Sign Up](#)
- c. By email: [snoco.4H@wsu.edu](mailto:snoco.4H@wsu.edu)

Your request will be displayed in the store for community members consider supporting. Store staff will contact you to arrange pick up once your need has been met. For questions, please contact Kim Baker ([kim.baker@wsu.edu](mailto:kim.baker@wsu.edu)).

As a reminder, 4-H is still not meeting in person until Phase 4 of the Washington Safe Start plan. This will continue to be the case even if schools reopen virtually or in a hybrid model. We are still available every Monday, Wednesday, or Friday for our virtual Tea Time. Please pop in to talk about your projects or club activities, to get technical assistance with virtual programming, or just to talk. Find Zoom log in information here: [Tea Time | Office Hours](#)

Thank you, Snohomish County 4-H, for being an amazing community!

Your Snohomish County 4-H Team,

Ashley Hall, Beth Wangen, Kim Baker, Kristi Boyd
