

DISINFECTING FOR FLU AND  
CORONAVIRUS

BE A PUBLIC HEALTH SUPER HERO!

HELP  
FIGHT  
THE SPREAD OF  
ILLNESS!

\*Adapted from the "Stop the Spread of Illness" poster by Snohomish Health District.

**SPLASH!**

**CLEAN SOILED  
SURFACES  
FIRST**

BEFORE DISINFECTING, USE SOAP TO CLEAN ANY SURFACES THAT ARE VISIBLY SOILED. DIRT CAN INTERFERE WITH DISINFECTANTS, LEAVING THEM LESS EFFECTIVE

**CHOOSE THE  
RIGHT PRODUCT**

**WHAM!**

CORONAVIRUSES CAN BE EASILY KILLED WITH LOW-LEVEL DISINFECTANTS. VISIT [WWW.EPA.GOV](http://WWW.EPA.GOV) AND CHOOSE A PRODUCT THAT IS EPA REGISTERED FOR DESTRUCTION OF COVID-19

**READ THE  
LABEL**

**WOW!**

FOR CORONAVIRUSES, FOLLOW THE PRODUCT USE DIRECTIONS FOR "ENVELOPED VIRUSES"

**KNOW THE  
CONTACT  
TIME**

SURFACES MUST REMAIN WET FOR THE "CONTACT TIME" LISTED ON THE BOTTLE

**POW!**

**CLEAN  
DAILY**

DISINFECT HIGH-TOUCH AREAS LIKE DOOR HANDLES AND RAILINGS AT LEAST ONCE PER DAY, OR AFTER SOMEONE COUGHS OR SNEEZES ON A SURFACE.
