

## 4-H NEEDLEWORK EXHIBIT SCORECARD KNITTING & CROCHETING

Examine and evaluate each article for the components listed below. The whole exhibit is more important than its parts. Evaluate items against the standard (Standards of Quality in Crafts, EM4720 and Quality Standards in Clothing Construction, PNW0197). Personal likes and dislikes must not influence the decision. After judging each component, place a check in the appropriate column; blue, red, white. If the article does not have the component listed, leave the column blank. Provide comments whenever a check is placed in the red or white category. After judging is complete, assign a ribbon placing.
