DASH OF 4-H We are bringing fun and learning to you with at home activity kits. We are excited to offer three new kits this spring, reserve yours today.

Crochet is a fabulous way to bring out kids' creativity, sharpen fine motor skills and keep busy hands occupied. While crocheting, kids will also practice reading, problem-solving, and simple math skills. Let's Crochet kits are filled with supplies and instructions to introduce youth to this timeless art and create a hat, scarf and a clover embellishment. Reserve your crochet kit at <https://tinyurl.com/2021LetsCrochet>

Lemon Power! Did you know that fruit bowls are brimming with electrical potential? Forget about making lemonade - generate homemade electricity instead! Building a battery with lemons is a classic science experiment and a great way for kids to discover the energy in nature. When kids power a light bulb with the energy from lemons it makes things that they can't see, like the energy in our food, very real and exciting. Reserve your lemon battery kit at <https://tinyurl.com/2021LemonBattery>

Welcome to Not Just Knots! You are about to learn 14 basic knots, bends, and hitches that can be used in many activities and situations, from sailing and climbing, to working with animals and decorating. This is going to be a lot of fun, and we're knot kidding! Reserve your knot tying kit at <https://tinyurl.com/2021NotJustKnots>
