Due 5/6/2020

YA4-H!

YOUTH ADVOCATES FOR HEALTH

Youth Advocates for Health! (YA4-H!) is a program where teens around the country spend time learning about and planning action to solve health issues. In Washington State, YA4-H! teens are joining forces with the WSU Center for Rural Opioid Prevention, Treatment, and Recovery (www.croptr.org) for Take-PART (Participatory Action Research with Teens), a community research project related to opiates.

WSU 4-H Youth Development is committed to providing safe and inclusive environments for all youth and adults regardless of race; sex; gender; sexual orientation; gender identity; gender expression; religion; age; color; creed; national or ethnic origin; citizenship; physical, mental, or sensory ability; genetic information; and/or status as an honorably discharged veteran or member of the military. Evidence of noncompliance can be reported through your local Extension office.
