Virtual Environmental Project

In the coming weeks we will be announcing a way for you to engage in an environmental campaign to help reduce food waste. What is food waste? It's all that food that gets thrown in the trash, and there is a lot of it, from what never makes it to the store, to what doesn't get sold by its due date, to those old leftovers in your fridge that you forgot about. If you are interested in becoming involved in this program either keep watching our social media or email Melanie to tell me you want to know as soon as the program is announced.

Mars Base Camp

Looking for a fun project to work on this summer that doesn't require the internet? Shop4-h.org is releasing this stem challenge that was developed with the help of Google and is supported by the US Air Force. The kit is for kids 8-14 and includes several fun activities introducing the work of some of today's top scientists in the areas of mechanical engineering, physics, computer science, and ag.
