

Exploration!

What do you like to do? Play video games, explore outside, entertain your friends and family? Whatever your passion is 4-H has the answer. Self-determined project areas are designed to let you explore whatever you enjoy doing.

Objective: Design your own project, using household items, to share with a friend, family member or just for fun!

Project Area: Self- Determined- Bingo Day 18

Ages: 1st-12th

Time: 1-2 hours

Supplies:

- Make a list of potential supplies.
- Think of things you could use as a substitute.

Activity Directions:

1. Don't know what to do? Look through books or magazines for ideas.
2. With parents' permission check out some of these websites:
 - a. 4-H Arts Showcase Grab and Go Lessons- <https://4hartshowcase.wordpress.com/category/lessons/>
 - b. 4-H Animal Science Anywhere- https://www.canr.msu.edu/resources/4_h_animal_science_anywhere
 - c. National Geographic Kids- <https://kids.nationalgeographic.com/>
 - d. CODEMOJI- <https://www.codemoji.com/playground.php>
 - e. WSU King County Extension- <https://extension.wsu.edu/king/learning-links-4-h-and-more/>

Facilitation Questions:

- What skills did you use while creating and coming up with your activity (ex. problem-solving, critical thinking, responsibility, etc.)?
- What kinds of jobs might be associated with the activity you just completed?
- What can you do to make it better (work better, look better, etc.)?
- Why did you create or complete this activity?
- Show or teach someone else about your activity and what you learned in the process.
