Civil Rights Information WSU Master Gardener Volunteers Confidential & Voluntary

The WSU Extension Master Gardener program is part of a land-grant university system. The land-grant university system was built on the principle that all people should have access to education. The WSU Extension Master Gardener program wants to ensure we uphold this principle in our work.

Additionally, Washington State University Extension and its programs are federally funded and as such are required by the Civil Rights Act to report demographic information for employees, volunteers and community persons who seek our services. Please complete this form and return it to your local program coordinator. Responses will not be used in the selection process. This page will be removed prior to the application being reviewed.

Our goal for collecting this information is to see how well we uphold the land-grant principle of access to education. We summarize the race, ethnicity, and gender of volunteers and of the people we serve to determine how closely WSU Master Gardener programs are to serving all audiences in each county.

Note: Your name will not be reported in conjunction with your Race, Ethnicity and Gender data. Your race ethnicity and gender data will not be used in the volunteer selection process. The data is reported as an aggregate to USDA-NIFA and names are never included in the reports. Individually identifiable information will be treated as confidential and is not disclosed without (written) consent. Your name is only used to record who has reported and who has not in order to accurately report Race, Ethnicity and Gender data.
