

GLOBE TOMATOES

BEEFSTEAK 	Indeterminate Open Pollinated 80 Days to Maturity	Large, solid, meaty, juicy, brilliantly red fruits weigh up to 2 lbs. An excellent slicer, with a rich, sub-acid flavor.
BELLINI 	Indeterminate Hybrid 65 Days to Maturity	Large-fruited orange cocktail tomato with great flavor. Great texture and good cracking resistance. Good general disease resistance.
BETTER BOY 	Indeterminate Hybrid 75 Days to Maturity VFNASt	A spectacular, midseason variety with plump, juicy, deep red tomatoes. Fruits are extremely flavorful, with flesh that's juicy, yet firm. A highly adaptable variety that thrives in nearly any climate.
BHN 589 F1 	Determinate Hybrid 75 Days to Maturity Fusarium wilt races 1,2 Mosaic virus Verticillium wilt	A surprising combination of fruit quality, shelf life, and really good flavor. Semi-determinate plants are larger than compact determinates. Also excellent in a hoop house or greenhouse.
BIG BEEF 	Indeterminate Hybrid 73 Days to Maturity VFFNTASt	1994 AAS Winner A good choice to try in virtually any climate, readily overcoming adverse growing conditions. Old-fashioned rich flavor.
CELEBRITY 	Semi-Determinate Hybrid 70 Days to Maturity Disease resistant Crack resistant	A great, all-round, dependable choice for your "basic" tomato needs -- sandwiches, slicing, snacks, and bruschetta. The large tomatoes are prized for their flavor.
CRIMSON CARMELLO 	Indeterminate Hybrid 75 days to Maturity LB, TMV, N, V	Produces heavy clusters of round fruit on strong, uniform plants. Especially impressive is its generous size fruit and well-developed flavor for such an early hybrid tomato.
EARLY GIRL 	Indeterminate Hybrid 57 Days to Maturity F 1-2, V	Early season. Meaty, ripe, red fruits, 4 to 6 oz. Firm texture and blemish-resistant skin. Heavy yields on hardy vines.

FANTASTIC 	Indeterminate Hybrid 80 Days Disease resistant Crack Resistant	Tasty, globe-shaped, scarlet red, 3 to 5", medium-sized fruits are almost crack-free. Rich in beefsteak flavor. Heavy yields are excellent for canning. Medium size
LEGEND 	Determinate Open Pollinated 68 Days to Maturity Disease resistant LB	One of the earliest maturing slicing tomatoes. The big, 4-5 inch, parthenocarpic fruit are glossy red, with a uniform round shape. Cold tolerant.
MOUNTAIN MERIT 	Determinate Hybrid 75 Days to Maturity F 1-3, LB TSWV, V IR AB, N. Crack resistant.	2014 AAS Winner. Medium to large, 8 to 10 ounce deep red fruits with excellent resistance to Late Blight, as well as others, makes the perfect slicing tomato.
OREGON SPRING 	Determinate Open Pollinated 60 Days to Maturity V resistant	Early variety that sets loads of meaty fruits weighing 3 to 5 oz., with excellent flavor. Compact plants set fruits even in cool weather and continue to yield all season long. Nearly seedless. A perfect choice for ketchup and sauces.
ROADSTER 	Determinate Hybrid 70 Days to Maturity	This salad variety combines early maturity with extra-large size. Fruits are an attractive red, very firm and smooth-shouldered with a superior flavor. Great choice for Northern climates with short growing seasons
SILETZ 	Determinate Parthenocarpic 60 days. F1, V	Siletz is one of the most reliable slicing tomatoes you can grow. The flavor-packed red tomatoes are nearly seedless. Expect several bursts of ripe tomatoes as the season progresses.
SUPER BUSH 	Determinate Container Hybrid Disease resistant	A tough, disease-resistant tomato variety that's a good choice for growing in containers. It produces a prolific crop of juicy, flavorful fruit of medium size.
