Draw or trace a design and then watch it shrink!

Using a Toaster Oven or Conventional Oven:

Step 1: Preheat oven to 325° F. And get a cookie sheet and line it with foil or parchment paper.

Step 2: Draw or trace and color a picture on the Shrinky Dinks paper. Cut out the design. Place the Shrinky Dinks paper color side facing up on a lined cookie sheet. Put into preheated oven with an adults help.

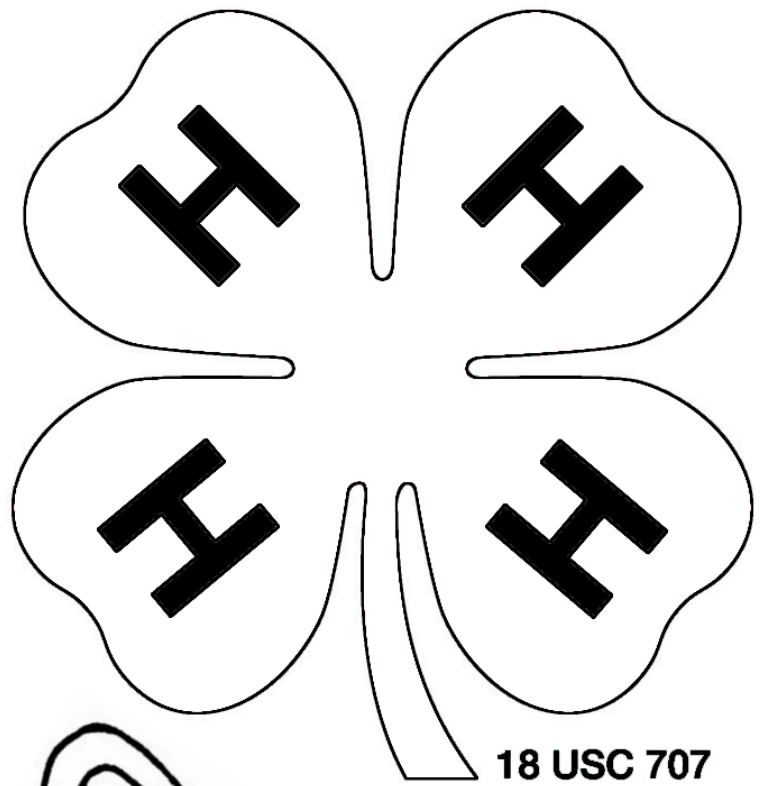

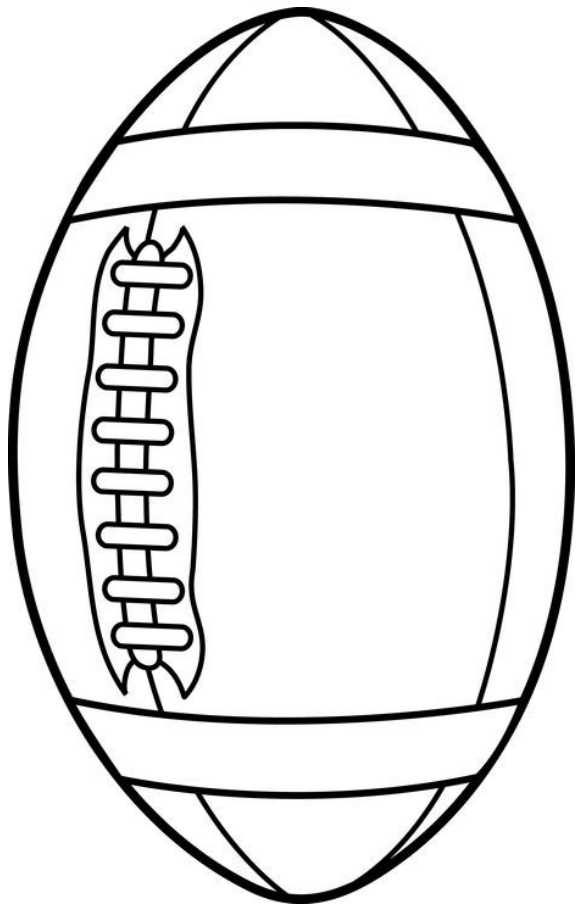

(If you want to make a charm, punch a hole in the design before baking)

Step 3: Watch through the oven window as your Shrinky Dinks begin to magically shrink! Shrinks in approximately 3-5 minutes (usually closer to 5 minutes) Pieces will curl up and then flatten. After pieces flatten allow an additional 15-30 seconds of baking time to complete the process.

Step 4: Remove tray from oven and allow Shrinky Dinks to cool, approximately 5 to 10 minutes.
