

## Garden Spotlight Japanese Garden

One of the most authentic Japanese Gardens outside Japan is located in the West Hills of Portland. Set on five and one-half acres, the garden contains a series of five formal garden styles: the Strolling Pond Garden, the Natural Garden, the Dry Landscape Garden, the Flat Garden and the Tea Garden.

The antique 5-tiered pagoda lantern in the Strolling Pond garden was donated to Portland in 1963 by their Sister City, Sapporo, Japan.

The [Portland Japanese Garden](#) website contains information, an events calendar, tour information, admission charges and detailed information on each of the five gardens.
