## Summer Specialty Crop Field Day: Cool Beans, Chill Peppers, Freaky Squash, & Superfly 'Shrooms

Join WSU Extension for this regional field day to learn more about multiple specialty summer crops ripe for adding a fresh edge to your farm's crop lineup. Participants will get to view, learn about, and enjoy a tasting of a variety of specialty vegetables, dry beans, and mushroom crops being grown by WSU Extension at the 78th St. Heritage Farm in Vancouver.

### PROGRAM FEATURES:

- Viewing of multiple varieties of edamame beans, specialty dry beans, mild habanero peppers and Tronboncino squash
- Viewing of a new trial examining forest-grown specialty mushroom production
- Discussions about WSU and OSU's past and current work on these crops, and future research
- Discussion about applications for these unique crops, how they may be marketed, and/or add value to your farm's crop offerings
- Opportunity for networking
- Tastings of each of the crops discussed at the field day
