Monique’s favorite thing about Pullman is “the fact that no matter where you go there’s always a Coug willing to help you”. Ms. Hampton chose Washington State University because the first time she came to visit the university, as soon as she stepped on campus, she “felt at home and like I belonged”. One interesting fact about Ms. Hampton is that she can ride a unicycle. Currently, Ms. Hampton is working on two research projects this year. The first project deals with crime, cannabis, and policing led by Dr. Mary Stohr. The second project she is currently assisting analyzes police and citizen interactions led by Dr. David Makin. After graduation, Ms. Hampton plans to attend graduate school in the Fall of 2020. When asked why she chose to study Criminal Justice, Ms. Hampton’s response was that “I have always been interested in the innerworkings of the criminal justice system as a whole since a young age. By studying Criminal Justice, it has given me the opportunity to not only study and learn about something I find immensely interesting that is also very prevalent in society”.

**Double Major:** Criminal Justice & Psychology  
**Classification:** Senior  
**Hometown:** Tacoma, Washington
