- I believe that participation in the Washington Youth Animal Science Program should demonstrate my own knowledge, ability, and skill as a feeder and exhibitor of animal projects.
- I will do my own work to the full extent I am capable of and otherwise will only accept advice and support from others.
- I will not use or allow abusive, fraudulent, or illegal practices in the feeding, fitting and showing of my animal(s), nor will I allow my parents, my supervisors, or any other individual to employ such practices with my animal(s).
- I will read, understand, and follow rules without exception, of all animal science shows in which I am a participant and ask that my parents and the supervisor of my project do the same.
- I wish for my animal science project to be an example of how to accept what life has to offer, both good and bad, and how to live with the outcome.
- I realize that I am responsible for: the proper care and safe humane treatment of my animals, complete control of project animal(s), demonstrating strong moral character as an example to others.
- I consent to having my animal(s) subjected to drug testing.
- I understand that no one is allowed to coach a contestant while said contestant is exhibiting in the Show Arena.

I have read, understand and will comply with the above-written policies.

<b>Years in 4H:</b> 13	<b>Project:</b> Swine	<b>Years in this project:</b> 9
<b>This is what I want to learn this year: (Make at least 3 realistic goals you can reach)</b> I want to learn how to show a pig properly I want to learn what type of pig makes a better show pig. I want to know what feed to give to my pig in order to increase muscle mass.		
<b>This is what my leader agreed to help me learn:</b> My leader agreed to help me find out what feed would benefit my pig the most and she also agreed to help me perfect my showing form.		
<b>This is how my parents/guardian agreed to help me learn:</b> Transport/find me transportation to my events, film classes so I can see where I need to improve and help me find groundwork activities.

# PROJECT PHOTOS (Include Captions and dates)

← This photo was taken at West Valley Fair when I was awarding Gus with the Senior Showmanship banner. This stood out to me because during the fair I had to show a friend's pig, as well as, one during round robin. Gus was more than willing to show me the proper way to show a pig before my class began. July 15, 2022

This photo was taken from when I was going to work with my first pig. I was extremely frustrated at first because I couldn't get the response I was looking for but the harder I worked the easier it became. January 3, 2022

# PROJECT HIGHLIGHTS

---

## What you learned.

### I learned:

- Pigs gain 2.47 pounds a day
  - I learned how to properly hold by brush and crop
- 

## Problems.

- My pigs kept spilling their feed and breaking their self feeders
  - My pig kept dragging its snout in the show pen
- 

## Successes.

- After a cold winter, my pigs still made weight
  - My pigs responded well to my crop and gestures
- 

## To Do Differently Next Time.

- Feed them in pans instead of self feeders until they get big enough
- Pay attention to detail
- Don't let feeders get empty

# DIVIDER (4-H STORY)

# MY 4H STORY (Start your story, finish when the year is done)

Hi my name is Kassidey Brownlee, I am 10 years old and junior with the Sagebrush Riders 4H club. Why I wanted to join 4H: an older friend of mine was in the Wenas Pony Express 4H club that did gaming so I decided to try it. Also, my cousin and I decided that we wanted to show horses like her mom did, so we joined the SBR.

(3-29-14) One day when I was riding my horse I came off and hit my elbow on a rock. This broke the end of my funny bone. I had to have surgery and I couldn't ride for 3 months. I was devastated. So, while I waited, I passed out ribbons at shows and when I was cleared, I hopped right back on my horse.

Some events we do in the Sagebrush Riders is Christmas caroling at nursing homes, the SBR horse show, and setting up the barn at horse shows. I like being in the Sagebrush Riders because we don't have to work on activities on our own, we all work as a team! Also, because we can ask the seniors questions, or we can see if they can help us!

Our club does Christmas caroling at nursing homes for the people in them. We have 2 parents play guitar and the people in the nursing homes can play their instruments with us. I like Christmas caroling with my club because it brings us together as a team and it brightens up the elders day!

The SBR horse show is what our club puts on every year. I like this show because our club gets to make the decisions and kids can sign up to pass out ribbons. Like this year I got to pass out ribbons.

Thank you for reading my story, Kassidey Brownlee
