Dear Sheep Producer,

Plan to attend the 2019 Spring Lambing Management School on May 3rd or 4th.

The purpose of the school is to give producers some experience, when possible, in assisting ewes with dystocia, caring for newborn lambs and general care and management of a farm flock.

Supervision is provided by:
Patrick McKay-Beach
Dr. Susan Kerr
Dr. Scot Lubbers
Dr. Ric Torgerson

Please fill out the registration form and return it by April 24th. A confirmation letter or e-mail with directions to the farm and any instructions will be sent. Participation is limited on a first-paid, first enrolled basis.

For overnight accommodations in the area see:
https://cathlametchamber.com/accommodations/

Little Barn Farm Facebook

For more information about the school, contact the WSU Cowlitz Extension office by calling (360) 577-3014 from 9 a.m. to 12 p.m. Monday-Friday.
School Participants

- Learn signs of Dystocia.
- Can receive experience in assisting ewes with lambing when available.
- Care for newborn lambs.
- Biosecurity in a farm environment
- Receive a resource DVD.

We will try to provide as much “hands on” experience for each participant as possible but lambing is not always predictable.

As time allows, participants receive information on flock management, reducing losses and increasing farm sustainability. Class is officially over at 4 p.m. but Mother Nature can add more if participants want to stay later.
