

LEGO MINDSTORMS NXT

Our LEGO Mindstorms NXT Kit is a great way to get students to expand their knowledge of robotics and engineering. Different sensors allow the robot to explore the world through different ways. This kit encourages the use of programming to control the robot, with included computers with LEGO Mindstorms Education NXT software. It also includes many pieces to make the robot mobile, pick up objects, or play ball. Multiple kits are available for check-out.

Kit Contents:

- LEGO Mindstorms NXT Core Set
- Laptops and chargers (not pictured)
