

MAGNET DISCOVERY

Our Magnet Discovery kit is a great way to get students interested in learning about how magnets work and how they interact with the world around them. This kit explores concepts such as magnets having two different poles, magnets attracting objects containing iron, magnetic fields, and electromagnets. Lesson plans for six different activities are included.

Kit Contents:

- *Classroom Attractions* Lesson Plans
- Magnets
- Iron filings
- Magnetic viewing film
- Lodestones
- Corks
- Nails
- Compasses
- Wooden dowels
