

STOP MOTION PHOTOGRAPHY

Teach students a different way of making movies with our Stop Motion Photography kit. This kit will allow students to create their own characters from clay or other materials, act out a scene, and record it into a short film. The trick is manipulating the object slightly for each frame to create the illusion of movement while watching the sequence. Multiple laptops with needed software are available for check-out to accommodate multiple group sizes.

Kit Contents:

- Laptop(s) with ZU3D software
- Laptop power cord(s) (not pictured)
- Power strip (if needed, not pictured)
- Webcam (if needed)
- Animation Curriculum
- Clay
- Pipe cleaners
- Plastic figurines
