

3D PRINTING

Our 3D Printing kit allows students to explore this exciting new technology. Students will learn about principles of design as they create a printable object using XYZmaker software on provided computers. Participants can also scan an object and then alter it using the software. They will then be able to print their creation. Multiple printers and laptops with necessary software are available for checkout.

Kit Contents:

- XYZ DaVinci Jr 3D Printer
- Scanning bed (at front left)
- Calibration plate (at front center)
- Other printer accessories (not pictured)
- Laptop(s) with XYZmaker software
- Laptop charger(s) (not pictured)
- Power strip (if needed, not pictured)
- Extra filament (various colors)
