

# ENTOMOLOGY

Let's go outside! Our Entomology kit encourages participants to explore the world around them through the life of insects. This kit includes materials for several activities including creating field guides, and bug collection and identification. A white sheet is included to place under a shrub or branch, shake it, and identify the insects that fall onto the sheet. Trowels allow students to dig up dirt, along with the insects that live there.

Age Level: 5-10; K-5<sup>th</sup> grade

Time: 3 hours

Applications: Nature; Environment; Ecology; Insects (Entomology)

County Available: Pierce
