**1991 Plantings - Additional Comments**

Pink Satin (early-mid)	Red buds, pale pink flowers, fades, mildly fragrant; good profuse bloom on all trees this year, light green leaves. Upright habit with long whippy branches.
Louisa (mid)	Pink buds, light pink flowers, less profuse than most, little fragrance. Bright green leaves. Pronounced weeping habit is attractive.
Sinai Fire (mid)	Bright pink buds, white flowers, very profuse bloom, strongly fragrant. Bright green leaves. Stiff semi-weeping habit.
Winter Gem (mid) 'Glen Mills cv.'	Red buds, white flowers, very profuse, fragrant. Green leaves. Upright spreading habit. Looks nice at this time.
Evereste (mid)	Red buds, white flowers, very profuse, strongly fragrant. Long bloom period. Green leaves. Compact spreading habit. Very showy.
Candymint (late)	Red buds, bright pink flowers with darker petal margins, very attractive mass effect, bloom more profuse than last year, mild fragrance. New leaves copper, older ones dark brownish green. Low spreading habit. Unusual and showy, nice for specimen tree.
Doubloons (late)	Large red buds, white full double flowers, very attractive, like miniature water lilies; profuse bloom, mildly fragrant. Bright green leaves, dense compact tree habit.
Golden Raindrops (late)	Pink buds, white starry flowers, very profuse, mildly fragrant. Bright green leaves, serrated like oak, gives foliage unusual airy effect. Upright spreading habit.
