What WSIPP Indicates about Community Supervision Policies that Reduce Crime

- Focus on higher-risk populations
- Crime deterrence from the swiftness and certainty of punishment, but not for severity of punishment (Swift & Certain sanctions)
- Referrals to programs, delivered with fidelity and assigned based on individual needs
- Supervision that includes face-to-face contact between CCOs and supervised individuals, coupled with treatment/interventions
Meaningful Supervision Today

- **Assessment**: Identification of each supervised individual’s risk and needs, and development of an individualized case plan

- **Engagement**: Regular CCO contact in field offices, home, work, school, and family

- **Programming**: Referrals and participation in change programs and services
  - Involves community engagement and partnerships to improve communication and wraparound treatment and services for supervised individuals and families

- **Accountability**
  - Adherence to Court ordered and DOC imposed conditions
  - Swift and certain responses to violations of conditions of supervision
  - Reinforce supervision compliance and positive behaviors
Supervision Upon Release

- Supervision includes:
  - Release planning, which includes stakeholder engagement to mitigate risk
  - Approved release address
  - Referrals and access to CBIs and treatment
  - Temporary housing assistance for individuals transitioning to supervision from prison
  - Ongoing monitoring of supervised individuals:
    - Verification of reported residence
    - Compliance with court ordered conditions
    - Progress in treatment
    - Facilitation of cognitive and behavioral change programs
    - Risk/needs assessments

- Without supervision:
  - Individuals return to their communities without the programs, monitoring, guidance and access to resources towards addressing their needs, thus aggravating their risk to reoffend.
Based on a supervised individual’s assessed needs, CCOs refer them to one or more of the following programs:

- Thinking for a Change
- Substance abuse treatment
- Domestic violence treatment
- Sex offender treatment
- Mental health treatment

Referrals based on higher risk/higher need
Community Corrections Challenges

- Out-of-date workload study (2004)
  - High–Violent: 6.66 hours/month
  - High–Non Violent: 5.77 hours/month
  - Moderate: 3.99 hours/month
  - Low: 0.82 hours/month

- Lack of jail capacity to house violators locally

- Resources and delivery of services may differ from county to county, rural vs. urban areas, etc.

- Complexities around:
  - Sentencing
  - Supervision eligibility
  - Tolling
Community Corrections Moving Forward

- Implementation of SHB 2417 to allow for meaningful alternatives to confinement for technical violations
- Implementation SHB 2394, concurrent terms of supervision
- Implementation of SHB 2393, supervision compliance credits
- Continued partnering with Washington Federation of State Employees to address workload challenges
- Continued implementation of sentencing alternatives to incarceration
- Ongoing collaboration with community and criminal justice stakeholders
