

Stephen L. Katz

School of the Environment, Washington State University
438 PACCAR
Pullman, WA 99164-2812
Steve.Katz@WSU.edu

Fields of Expertise: Resource Ecology & Management, Informatics, Conservation Biology, Marine Biology, Fisheries Ecology, Biostatistics, Physiology, Biomechanics, Fluid Dynamics, Microfluidics Engineering, Science & Research Diving

Education

Ph.D. University of British Columbia, Vancouver, B.C., Canada, Zoology/Biomechanics, 1992.
B.A. Occidental College, Los Angeles, California, Biological Sciences (Marine Biology emphasis), 1986.

Professional History

Associate Professor, School of the Environment, Washington State University, Pullman, WA 2014-Present.

Research Coordinator, Channel Islands National Marine Sanctuary, NOAA Office of National Marine Sanctuaries. Santa Barbara, CA, 2007 – 2013.

Monitoring and Evaluation Coordinator for Salmon Recovery, NOAA, National Marine Fisheries Service. Seattle, WA, 2001 – 2007.

Unit Diving Supervisor, Pacific Northwest. NOAA NMFS & ONMS. 2004 – 2014.

Research Associate. Zoology Department, Duke University. Durham, NC 1998-2000. Field: Microfluidics, Biomechanics, Fluid Dynamics.

Post-Doctoral Fellow. Center for Marine Biomedicine and Biotechnology, Scripps Institution of Oceanography, UCSD. San Diego, CA 1993-1998.
Field: Physiology & Biomechanics of pelagic fish

Awards for Research

2016. Bruce Gardner Memorial Prize for Applied Policy Analysis: Benefit-Cost Analysis of the Yakima Basin Integrated Plan Project. Agricultural and Applied Economics Association.

2015. Team Interdisciplinary Award, College of Agricultural, Human and Natural Resource Sciences, Washington State University

Grantsmanship (Successful and in Process)

2016. INFEWS: Global Food, Energy, Water, and Land Security in a Climate Constrained World. National Science Foundation (NSF). J. Adam, Lead PI, Co-PI's: S. Katz, D. McLarty, J. Padowski, J. Boll (14 Senior Personnel total). Partial administrative duties. Awarded \$2.999M. [Role: Co-PI on the proposal, responsible for narrative and budget development for Conceptual Development portion of project (33%); leveraged PI group & narrative of USDA CAP proposal.]

2015-2017. LTREB: Invasions in Highly Variable Environments: Long-term Zooplankton Research to Understand Fundamental Processes of Population and Community Ecology. NSF S. Bollens, Lead PI, Co-PI's: S. Katz, J. Cordell, S. Hampton, G. Rollwagen-Bollens. Pending. [Role: Co-PI on the proposal, responsible for narrative and budget development for Data Analysis portion of project (33%).]

2012. Spatial pattern in the distribution and diversity of deep water corals and sponges in the Channel Islands National Marine Sanctuary. NOAA Coral Reef Conservation Program (Competitive Program). Sole PI; full administrative duties. Awarded \$109,000.
[Role: Sole PI on the proposal, responsible for concept, narrative and budget development and project management.]
- 2009-2010. Evaluation of large whale responses to large ships and data coordination to evaluate ship activity and whale strike risk in the Santa Barbara Channel. NOAA NMFS Office of Science and Technology (Competitive Program). Sole PI; full administrative duties. Awarded \$38,000.
[Role: Sole PI on the proposal, responsible for concept, narrative and budget development and project management.]
2008. Building the Foundation: New statistical tools for analyzing community dynamics with applications to marine zooplankton. NSF & NOAA via CAMEO joint program (Competitive Program). Co-PIs: S. Katz (NOAA-ONMS), E. Holmes, M. Scheuerell (NMFS) & S. Hampton (NCEAS); partial administrative duties. Awarded \$347,293; 24 months.
[Role: Principal PI on the proposal, responsible for concept, narrative and budget development and project management.]
2007. Alternative Approaches to Evaluating Effectiveness of Habitat Restoration Actions. NOAA (Competitive Program). Sole PI; full administrative duties. Awarded \$86,000.
[Role: Sole PI on the proposal, responsible for concept, narrative and budget development and project management.]
- 2006-2007. Synthesis of regional diversity in the terms "Limiting Factors" into a common data dictionary of limiting factors for salmon recovery. NOAA. Sole PI; full administrative duties. Awarded \$340,000.
[Role: Sole PI on the proposal, responsible for concept, narrative and budget development and project management.]
- 2005-2007. Deployment of Comprehensive Habitat Restoration Action Database as regional resource for salmon recovery. NOAA (Competitive Program). Sole PI; full administrative duties. Awarded \$367,952.
[Role: Sole PI on the proposal, responsible for concept, narrative and budget development and project management.]
- 1996-1998. Integrative Functions of Swimming. National Science Foundation; Integrative Animal Biology (IBN95-14203). Co-PI's: R. E. Shadwick, J. W. Covell & J. B. Graham. Awarded \$240,000; 36 months.
[Role: Senior Personnel on the proposal, responsible for 100% of concept development, authoring of narrative and 67% of budget development and project management.]

Service

2016

- Graduate Studies Committee, WSU School of the Environment [Member]
- Quantitative Forest Ecology Search Committee, WSU School of the Environment [Member]
- Faculty Advisor, Palouse Unit of American Fisheries Society (Combined WSU & U of Idaho).

2015

- Environmental Studies Curriculum Review Committee, WSU School of the Environment [Member]
- Faculty Advisor, Palouse Unit of American Fisheries Society (Combined WSU & U of Idaho).
- U.S.G.S. Northwest Climate Science Center Review Team. External to WSU [Member]

2014

- Environmental Geochemistry Search Committee, WSU School of the Environment Vancouver campus [Member]
- WSU Review Team for Yakima Basin Integrated Water Management Plan. [Member]

- Faculty Advisor, Palouse Unit of American Fisheries Society (Combined WSU & U of Idaho).

2014-2016 Ad hoc reviewer for the following journals:

Water, Comparative Biochemistry and Physiology, Inland Waters, Ecological Research

Professional experience

Research Coordinator for Channel Islands National Marine Sanctuary. (2007-2014):

Collaborate with approximately two dozen diverse partner organizations and investigators to facilitate and implement research and monitoring around the Channel Islands National Marine Sanctuary. Where appropriate, design, obtain funding for, and execute internal research to address Sanctuary management needs. Activities also include the co-coordination of the activities of two regional oceanographic research vessels with a combined 210 days at sea per year.

Monitoring Coordinator for Salmon Recovery. (2001 – 2007):

Design monitoring plans for recovery efforts of endangered salmonids within the North West Anadromous Zone (WA, OR, ID, N. CA), an activity that requires extensive coordination with dozens of stakeholders and navigation of policy complexities. The monitoring plans include facilities for measuring population status as well as population response to specific recovery actions.

Unit Diving Supervisor for NOAA-Fisheries and NOAA-Office of National Marine Sanctuaries (2004 – 2014): Coordinate diving activities in support of NOAA's mission, and participate in training as an instructor. Coordinate and analyze operational, safety and technological development activities of NDP in cooperation with staff of NOAA Dive Center.

Microfluidics Engineering & Microscopic Imaging (1998-2000):

Design, fabricate and use devices and associated software to perform tests on microfluidic and MEMS devices.

Animal Biomechanics and Physiology (1987-2001):

Analyze biomechanics of locomotion in organisms from insects to tuna, including the design and fabrication of equipment and software for biomechanics measurement and analysis.

Instructor of record

Washington State University (2014; Current)

Introductory Oceanography (GEO 230; Large Enrollment, UCORE course)

Quantitative Data Analysis for Environmental Science (ENVR_SCI 592 & GEO 596)

Fisheries Science and Management (ENV_SCI 419)

Bren School of the Environment – University of California, Santa Barbara (2010)

Statistics & Data Analysis for Environmental Science & Management (ESM 206)

Marine Science Institute – University of California, Santa Barbara (2008)

Distributed Graduate Seminar – The Role of Marine Protected Areas in Ecosystem-based Management: Examining the science and politics of an ocean conservation strategy.

Biology Department – University of California, San Diego (1998)

Vertebrate Physiology Lecture w/ Laboratory (BIPN 105).

Scripps Institute of Oceanography – Univ. of California, San Diego (1994)

Advanced topics in Marine Biology – Biomechanics of Marine Organisms (SIO296).
