JOHN A. HARRISON

CURRICULUM VITAE
OCTOBER 2018

Room 230B, Sciences Building
School of the Environment
Washington State University, Vancouver
14204 NE Salmon Creek Avenue
Vancouver, Washington 98686

Phone: (360) 546-9210
Fax: (360) 546-9064
Email: john_harrison@wsu.edu

EDUCATION

Ph.D., Geological & Environmental Sciences, Stanford University	2003
Bachelor of Science (Honors), Biological Sciences, Brown University	1995

POSITIONS HELD

2018 – Present	**Edward R. Meyer Distinguished Professor,** School of the Environment, Washington State University
2012 – 2018	**Edward R. Meyer Distinguished Associate Professor**, School of the Environment, Washington State University
2013 – 2014	**Visiting Scholar**, Utrecht University Geochemistry Group, Netherlands
2006 – 2012	**Assistant Professor**, School of Earth and Environmental Sciences, Washington State University
2009 – 2013	**U.S. Environmental Protection Agency Expert Hire**, Ecosystem Services Research Program Nitrogen Theme
2005 – 2006	**CALFED Science Fellow**, Department of Land, Air, and Water Resources, University of California, Davis
2003 – 2005	**Postdoctoral Associate**, Institute of Marine and Coastal Sciences, Rutgers University
1997 – 2003	**NSF and NASA Graduate Fellow,** Stanford University, Department of Geological and Environmental Sciences
1995 – 1996	**Samuel T. Arnold Science and Policy Fellow**, Brown University, Costa Rica, Taiwan, and England

HONORS AND AWARDS

Fellow, Association for the Sciences of Limnology and Oceanography	2017 – Present
Edward R. Meyer Distinguished Professorship (awarded twice)	2013 – 2020
Chancellor's Award for Research Excellence (WSU Vancouver)	2016
Ecological Society of America Sustainability Science Award (w. *Seeds of Sustainability* co-authors)	2013
US EPA Scientific and Technological Achievement Award	2012
WSU College of Science Young Faculty Performance Award	2010

PEER-REVIEWED PUBLICATIONS

(h-Index 26, Total Citations: >5,470, Citations since 2013: >3,601, Source: Google Scholar)
*(*Postdoc or student directly supervised by Harrison, +Technician directly supervised by Harrison)*

67. Hinshaw, S.E., T. Zhang, **J.A. Harrison**, and R.A. Dahlgren (Submitted) Excess N_2 and denitrification in riverbed porewaters and groundwaters of the San Joaquin River, California, *Water Resources Research.*

66. **Harrison, J.A.**, A.H.W Beusen, G. Fink, T. Tang, M. Strokal, A.F. Bouwman, *G.S. Metson, and L. Vilmin (In Revision) Modeling phosphorus in rives at the global scale: recent successes, remaining challenges, and near-term opportunities, *Current Opinion in Environmental Sustainability*.

65. *Deemer, B.R. and **J.A. Harrison** (In Revision) Summer redox dynamics in a eutrophic reservoir and sensitivity to a summer's-end drawdown event, *Ecosystems.*

64. van Vliet, M.T.H., M. Flörke, **J.A. Harrison**, N. Hofstra, V. Keller, F. Ludwig, J.E. Spanier, M. Strokal, Y. Wada, Y. Wen, and R. Williams (In Press) Model inter-comparison design for large-scale water quality models, *Current Opinion in Environmental Sustainability*.

63. *Rose, V.J., *W.M. Forney, *R.A. Norton, and **J.A. Harrison** (In Press) Catchment characteristics, water quality, and cyanobacterial blooms in Washington and Oregon lakes, *Lake and Reservoir Management. Written with graduate students in Watershed Biogeochemistry course.*

(Total as PI or Co-PI: >$18,575,000; Total Directly to Harrison at WSU: >$3,110,000; Total External Funding Directly to Harrison at WSU: >$2,780,000)

2018 – 2019 USGS 104b Program: *Understanding controls on mobility and toxicity of tungsten, an emerging threat to Washington's waters*, $27,500; Co-PIs: Nikolay Strigul and J.A. Harrison.

2017 – 2018 WSU Vancouver Faculty Seed-grant: *Developing fundamental new knowledge of stormwater nitrogen pollution removal by unsaturated bioswales: testing novel methods and generating compelling preliminary data,* $5,000; PI: J.A. Harrison (co-written with S. Kintner and Co-PI K. Moffett).

2017 – 2018 WSU Vancouver Faculty Seed-grant: *Development of a hyperspectral remote sensing approach for detection of algae blooms and methane emissions from SW Washington lakes,* $7,000; PI: N. Strigul; Co-PIs: J.A. Harrison and G. Rollwagen-Bollens.

2017 WSU Infrastructure Grant: *Inaugural Instrumentation for Establishing the WSUV Environmental Mapping Core Facility*, $89,000; PI: S. Henderson; Co-PIs K. Moffett, N. Strigul, and J.A. Harrison.

2017 WSU Infrastructure Grant: *Enhancing critical research infrastructure for water sustainability and global change science: transportation, storage and experimental facilities*, $25,000; PI: J. Bishop; Co-PIs: S. Bollens, J.A. Harrison, S. Henderson, M. Kramer, K. Moffett, L. New, J. Piovia-Scott, S. Porter, G. Rollwagen-Bollens, C. Schultz, and N. Strigul.

2016 – 2018 Murdock Charitable Trust; *WSU Vancouver Water Instrumentation*, $171,500; PI: J.A. Harrison; Co-PIs: M. Kramer, J. Piovia-Scott, S. Porter, and K. Moffett.

2016 – 2021 National Science Foundation Innovations at the Food-Energy-Water Nexus (INFEWS) *INFEWS/T1 Global-FEWS: Global Food, Energy, Water, and Land Security in a Climate-Constrained World*, $2,999,249; PI: J. Adam, Co-PIs: J. Boll, T. Fortenbery, J. Givens, M. Goldsby, S. Hampton, J.A. Harrison, S. Katz, C. Kruger, M. Liu, D. McLarty, J. Padowski, C. Stockle, and J. Yoder, WSU Vancouver Portion: $168,357; WSU Vancouver PI: Harrison.

2016 – 2018 US Army Corps of Engineers-Institute for Water Resources: *Characterizing Variability and Controls of Greenhouse Gas Emissions from Pacific Northwest Reservoirs, with Implications for Possible Mitigation Measures*, $300,000; PI: J.A. Harrison.

2016 – 2017 WSU Grand Challenge Program Grant:, *Maximizing the potential for green stormwater infrastructure to save energy and provide clean water for people and the fish they eat***,** $ 3,511,885; PI: Stark, J.; Co-PIs: P. Glazebrook, S. Hampton, J.A. Harrison, A. Jayakaran, and A. Love.

Grants (continued)

2016 – 2017	WSU Grand Challenge Seed Grant: *Optimizing GSI efficacy by integrating hydrologic, cultural, and socioeconomic elements in a watershed spanning the urban-agriculture continuum*, $74,509; PI: Jayakaran; Co-PIs: J. Wu, S. Hampton, M. Sanchez, M. Brady, J.A. Harrison, J. Stark, J. Kaytes, and D. Moore.
2016-2017	WSU External Mentoring Grant: Mentorship for John Harrison in support of research and administration goals, $2,050; PI: J.A. Harrison.
2014 – 2019	National Science Foundation, Ecosystems: *Integrating biogeochemistry and physics to understand nitrogen transformation in lakes and reservoirs*, $574,995; PI: J.A. Harrison; Co-PI: S. Henderson
2016-2017	USGS 104b Program: *Understanding links between water, nitrogen, and greenhouse gases in "green" infrastructure*, $27,500; Co-PIs: J.A. Harrison and K.B. Moffett
2015-2016	WSU Center for Environmental Research, Education and Outreach Food, Energy and Water Seed Grant *An integrated biophysical-economic study of a model FEW system: Columbia River reservoir storage and spill*, $24,943; PI: Bollens; Co-PIs: J.A. Harrison, G. Rollwagen-Bollens, M. Brady, P. Wandschneider, and H. Chouinard
2014	College of Arts and Sciences International Travel Grant, $1,000, PI: J.A. Harrison
2012 – 2015	World Bank Global Environment Facility funding to UNEP and UNESCO-IOC**:** *Global foundations for reducing nutrient enrichment and oxygen depletion from land based pollution, in support of Global Nutrient Cycle, (*$3,618,182, Overall Project PI: Datta, WSU Vancouver Portion $130,000; WSU PI: J.A. Harrison)
2013 – 2015	Earth, Ecosystems, and Society (CEREO) Fellowship, $30,000, PI: J.A. Harrison
2012 – 2015	US Army Corps of Engineers-Institute for Water Resources: *Characterizing greenhouse gas emissions from water reservoirs and possible mitigation measures with water level drawdown policy implications for the Pacific Northwest,* $400,000; PI: J.A. Harrison
2012 – 2013	Supplement to Collaborative Research: NSF ULTRA-Ex: *Collaborative Research: How do feedbacks between governance and biophysical systems affect resilience of urban socio-ecological systems?* ($88,000, Overall Project PI: Yeakley, WSU, Vancouver portion: $21,000; WSU PI: Bollens, S.M., Co-PIs: J.A. Harrison, G. Rollwagen-Bollens, M. Stephan, and P. Thiers)

Grants (continued)

2012 – 2016 NSF Water Sustainability and Climate, ultimately funded by USDA: *Watershed Integrated System Dynamics Modeling (WISDM): Feedbacks among biogeochemical simulations, stakeholder perception, and water policy,* $1,495,640 (Project PI: C. Huyck-Orr, WSU Vancouver Portion $256,000; WSUV PI: J.A. Harrison)

2011 – 2013 NSF Hydrology/Ecosystems/Geobiology and Low Temperature Geochemistry: *Emerging Topics in Biogeochemical Cycles* (*ETBC): Interacting hydrological and biogeochemical controls on nitrogen transformation hot spots and hot moments in a eutrophic reservoir*, $129,996; PI: J.A. Harrison, Co-PI: S. Henderson

2012 – 2013 USGS 104b Program: *Climate change, land-water transfer, and in-stream fate of nitrogen in an agricultural setting,* $27,000; PI: C. Huyck-Orr, Co-PI: J.A. Harrison

2011 – 2016 NSF Earth System Modeling (EaSM), ultimately funded by USDA: *Collaborative Research: Understanding biogeochemical cycling in the context of climate variability using a regional Earth system modeling framework*, $3,053,000; (Project PI: J. Adam, WSU Vancouver Portion $196,000; WSUV PI: J.A. Harrison)

2011 – 2012 WSU Vancouver Faculty Mini-grant: *Quantifying temperature effects on denitrification in wetland sediments,* $5,000; PI: J.A. Harrison (co-written with A. Jacobs)

2010 – 2012 Collaborative Research: NSF ULTRA-Ex: *Collaborative Research: How do feedbacks between governance and biophysical systems affect resilience of urban socio-ecological systems?* ($184,416, Overall Project PI: A. Yeakley, WSU, Vancouver portion: $31,341; WSU PI: S.M. Bollens, Co-PIs: J.A. Harrison, G. Rollwagen-Bollens, M. Stephan, and P. Thiers)

2010 – 2011 WSU Vancouver Faculty Mini-grant: *Agriculture's role as a source of dissolved organic nitrogen to surface waters,* $4,995; PI: J.A. Harrison (co-written with R. Martin).

2010 – 2011 USGS 104b Program: *Developing a novel, interdisciplinary approach to understand hot moments in reservoir nutrient transformation,* $28,000; PIs: J.A. Harrison and S. Henderson

2009 – 2010 U.S. Bureau of Reclamation: *Modeling nitrogen loads and sources in central valley watersheds: taking existing monitoring data to the next stage,* $42,000; PI: J.A. Harrison

2007 – 2010 NASA-ROSES**:** *Further tests on a modeling framework to detect and analyze changes in land-to-coastal fluxes of freshwater and constituents,* $1,200,000; PI: C. Vörösmarty (WSU Vancouver Portion $182,000; WSU PI: J.A. Harrison)

Grants (continued)

2008 – 2009	USGS 104b Program: *Reservoir sediments: biofilter or environmental liability?* $25,000; PI: J.A. Harrison
2008 – 2009	WSU Vancouver Faculty Mini-grant: *Summer spill events and nutrients in the Columbia River,* $4,000; PI: J.A. Harrison (co-written with D. Sobota)
2007 – 2008	USGS 104b Program: *Lacamas Lake and other Northwest reservoirs as bioreactors: how do dams affect downstream nutrient transport?* $24,000; PI: J.A. Harrison
2007 – 2008	WSU Vancouver Faculty Mini-grant: *Soil phosphorus availability and lupines during primary succession,* $4,000; PI: J.A. Harrison (co-written with M. Murashkina)
2005 – 2008	California Bay Delta Authority: *Modeling nutrient and organic carbon loads and sources in central valley watersheds: taking existing monitoring data to the next stage,* $229,500; PI: J.A. Harrison

Fellowships and Grants to Harrison as a Student

NSF Dissertation Enhancement Award	(~$16,000)	2001 – 2002
NASA Earth System Science Graduate Fellowship	(~$75,000)	1999 – 2002
NSF Pre-doctoral Fellowship	(~$75,000)	1997 – 2000
Two McGee Fellowships, Stanford University	(~$10,000)	1998 & 2000
Samuel T. Arnold Fellowship, Brown University	($16,000)	1995 – 1996
Brown University Writing and Rhetoric Fellowship	(~$2,000)	1993 & 1994
Two NSF Research Experience for Undergraduates Grants	(~$15,000)	1993 & 1994
Woods Hole Research Consortium Fellowship Award	($2,000)	1992

Teaching and Advising

WSU Courses

Semester	Course Title	Credit Hrs.	Enrollment
Spring 2007	Principles of Chemistry II	4	67
Fall 2007	Global Biogeochemistry	3	18
Spring 2008	Principles of Chemistry II	4	74
Fall 2008	Watershed Biogeochemistry	3	9
Spring 2009	Principles of Chemistry II	4	122
Fall 2009	Global Biogeochemistry	3	11
Spring 2010	Principles of Chemistry II	4	98
Fall 2010	Watershed Biogeochemistry	3	5
Spring 2011	Introduction to Earth System Science	3	27
Fall 2011	Global Biogeochemistry	3	15
Spring 2012	Introduction to Earth System Science	3	9
Fall 2012	Watershed Biogeochemistry	3	5
Spring 2015	Watershed Biogeochemistry	3	3
Fall 2015	Introduction to Earth System Science	3	23
Fall 2016	Introduction to Earth System Science	3	11

Other Teaching-related Activities

Participating Faculty in NSF-funded Nitrogen Systems Policy Integrated Research and Education, Integrated Graduate Education and Research Training (NSPIRE-IGERT) Program, worked with other core NSPIRE faculty to attain funding for this program, develop and deliver program-specific curriculum, and advised 2 Ph.D. student Fellows.

Participating Faculty in NSF-funded "Partners in Discovery" GK-12 grant, advised 9 graduate student GK-12 Fellows.

Organizer/Leader Nutrient Loading and Large Marine Ecosystems Workshop, World Bank/GEF, Paris, France, 1/2006, with S. Seitzinger, designed, developed and taught a short course on the application of global river nutrient export models; participants included 8 leading scientists from 7 distinct developing world regions

Supervisor for Technicians, Stanford University, Rutgers University, and WSU-Vancouver 2000 -Present, Trained and supervised 5 technicians for periods up to 3 years.

Founder/Organizer of Stanford Biogeochemistry Seminar, Stanford University, 1999 - 2000 Conceived, attained funding for, organized, and led the first Stanford Biogeochemistry Seminar, which subsequently lasted for at least 5 years (20+ participants/year, 12 speakers/year, budget $5000/yr)

Writing and Rhetoric Fellow, Brown University, Providence, RI, 1993 - 1994, Taught writing and speaking skills to Brown University undergraduates for 3 semesters.

Mentoring and Advising

Past Postdoctoral Associates:

Dr. Genevieve Metson – (NRC Postdoc, 2015-2017); Co-advised with Jana Compton at EPA's-Western Ecology Division, Currently Faculty at Linkoping University

Dr. Daniel Sobota (2007-2014) – NRC Postdoc (2010-2012) and ORISE postdoc (2012-2014); Co-advised with Jana Compton at EPA's-Western Ecology Division, Currently a Research Scientist at OR Department of Environmental Quality

Dr. Michelle McCrackin (2010-2014) - NRC Postdoc; Co-advised with Jana Compton at EPA's-Western Ecology Division, Currently a Research Scientist at the Baltic Nest Institute in Stockholm, Sweden

Dr. Daniel Reed – (2014-2017) - Currently an Aquatic Biologist at the Bedford Institute of Oceanography

Current Graduate Students (*Harrison primary advisor, ¶co-advised, no symbol indicates Harrison on graduate committee)

*Sofia D'Ambrosio	(Ph.D.) – NSF Graduate Research Fellowship
*Will Forney	(M.S.) – WISDM Research Assistant
*Sammi Grieger	(M.S.) – INFEWS Research Assistant
¶Sarah Kintner	(M.S.) – Green Stormwater Infrastructure Research Assistant
*Corey Ruder	(Ph.D.) – NSF Graduate Research Fellowship
¶Phil Steenstra	(M.S.)
¶Fabiana Ferracina	(Ph.D.)
Lauren Burns	(M.S.)
Vanessa Rose	(Ph.D.) – NSF Graduate Research Fellowship
Jeffrey Nielson	(Ph.D.)

Past Graduate Students (*Harrison primary advisor)

Sean Nolan	(M.S.)
Craig Haskell	(Ph.D.) – NSF GK-12 Fellow
Mailea Miller-Pierce	(Ph.D.) – NSPIRE IGERT Fellow
*Bridget Deemer	(Ph.D.) – NSPIRE IGERT Fellow, EPA STAR Fellow
*Reed Norton	(M.S.) – ULTRA-EX Research Assistant
*Rebecca Martin	(Ph.D.) – NSF Predoctoral Fellow, NSPIRE IGERT Fellow (Currently at USEPA as NRC Postdoctoral Fellow)
*Cody Miller	(M.S.) – USDA Bio Earth Research Assistant
Ricardi Duvil	(Ph.D.) – NSPIRE IGERT Fellow
*Allison Jacobs	(M.S.) – 2011, 2012 NSF GK-12 Fellow (Currently at Puget Sound Energy)
*Bridget Deemer	(M.S.) – 2010 NSF GK-12 Fellow (Currently pursuing a Ph.D. at WSU)
*Kara Goodwin	(M.S.) – 2010 NSF GK-12 Fellow (Currently at OR DEQ)

Past Graduate Students Cont'd. (*Harrison primary advisor)

Keith Sorenson	(M.S.) – 2012 NSF GK-12 Fellow
Louise Wynn	(M.S.) – 2011
Jennifer Blaine	(M.S.) – 2010 NSF GK-12 Fellow
Kassi Dallavis	(M.S.) – 2010 NSF GK-12 Fellow
Ray Yurkewycz	(M.S.) – 2010 NSF GK-12 Fellow
Jennifer Duerr	(M.S.) – 2009 NSF GK-12 Fellow
Kate Olsen	(M.S.) – 2009 NSF GK-12 Fellow
Nathan Reynolds	(M.S.) – 2009

Undergraduate Research Assistants ([1]WSU, [2]Current, [3]Received Award for Research)

Name	Project Title
Rachel Sipler	Understanding Nutrient Loading to the Mediterranean Sea
Weihan Chang	Understanding Nutrient Loading and Primary Production in the Mediterranean Sea
Cali Benfit[1]	Nitrogen dynamics in Lacamas Lake
Dawn Freeman[1,3]	Nitrogen fixation in Lacamas Lake
Elliott Whitling[1,3]	Denitrification in Lacamas Lake
Kathleen Denlinger[1]	Tracing inlet waters in Lacamas Lake
Abraham Robles[1]	Techniques for biogeochemical analysis
Zack Budiselic[1,3]	Sedimentation rates in Lacamas Lake
Maria Glavin[1,3]	Understanding and quantifying drawdown effects on methane emissions from Lacamas Lake sediments
Drew Houston[1]	Nitrogen dynamics in Lacamas Lake
Melissa Knudson[1,3]	Phosphorus loss and retention over 30 years of soil development on Mt. St. Helens' Pumice Plain
Jason Jacobsen[1]	Lacamas Lake nitrogen dynamics
James "Stu" McNeal[1]	Developing an autonomous water sampler for lakes and reservoirs
Michelle Schafer[1]	Characterizing sediments from Pacific NW reservoirs across a trophic gradient
Anna Withington[1]	Evaluating the role of alternative electron acceptors in methane dynamics of Lake sediments
Francesca Frattaroli[2,3]	Development and testing of an autonomous methane ebullition sensor
Terryn Mitchell[1,2]	Evaluation of conservative tracers in Lacamas Lake sediments and waters
Amaanjit Singh	Measurements in support of stormwater research
Rebecca Clarke[1,2]	Quantifying the phosphorus footprint of different agricultural products

Undergraduate Academic and Career Advising

2018	10 Students
2017	11 Students
2016	10 Students
2015	10 Students
2014	8 Students
2013	10 Students
2012	10 Students
2011	10 Students
2010	10 Students
2009	10 Students
2008	25 Students
2007	14 Students
2006	8 Students
Total	146 Students

Selected Published Abstracts

(Only First-authored Since Tenure)

Harrison, J.A., G. Metson, and A.H.W. Beusen. *Recent successes and near-term challenges in modeling P loading to surface waters*, AGU Fall Meeting, New Orleans, LA 12/2017.

Harrison, J.A., B.R. Deemer, and M.K. Birchfield. *Controls on reservoir methane ebullition: a case study*, ASLO, Santa Fe, NM 6/2016.

Harrison, J.A., B.R. Deemer, and M.K. Birchfield. *Reservoir water level drawdown is an important and manageable control on methane release to the atmosphere*, ASLO, Granada, Spain 2/2015.

Harrison, J.A., B.R. Deemer, and M.K. Birchfield, *Reservoir water level drawdown is an important and manageable control on methane release to the atmosphere*, AGU, San Francisco, CA, 12/2014.

Harrison, J.A., J. Mogollón, A.F. Bouwman, and A.H.W. Beusen, *Insights from a New Accounting and Synthesis of Coastal Nutrient Delivery at the Global Scale*, IMBER, Bergen, Norway, 6/14

Harrison, J.A., B.R. Deemer, and M.K. Birchfield, *Water level management and methane bubble emissions from reservoirs in the Pacific Northwest U.S.*, Joint Aquatic Sciences Meeting, Portland, OR 5/14.

Harrison, J.A., P. Frings, and D.J. Conley, *Regional and global controls and potential significance of dissolved silica retention in lakes and reservoirs*, Ecological Society of America, Portland, OR: 8/12.

Harrison, J.A., P. Frings, and D.J. Conley, *Regional and global controls and potential significance of dissolved silica retention in lakes and reservoirs*, American Society of Limnology and Oceanography, Kyoto, Japan: 7/12.

Harrison, J.A., B.R. Deemer, and M. Glavin, *The role of reservoirs and reservoir operation in controlling water quality and greenhouse gas production: examples from a global model and a case study*, Society for Freshwater Science, 6/2012.

Harrison, J.A., P. Frings, and D.J. Conley, *Regional and global controls and potential significance of dissolved silica retention in lakes and reservoirs*, AGU, San Francisco, CA: 12/11.

INVITED SYMPOSIA

Harrison, J.A. *River Nutrient Inputs to the Global Coastal Ocean: Patterns, Causes, and Consequences,* Washington State University Science Seminar, Washington State University, Vancouver, Vancouver, WA, 2/2018.

Harrison, J.A. *Coastal hypoxia and marine sensitivity to land-based inputs in indicators of coastal water quality,* UNESCO, Paris, France, 12/2017.

Harrison, J.A., G. Metson, and A.H.W. Beusen (Invited). *Recent successes and near-term challenges in modeling P loading to surface waters*, AGU Fall Meeting, New Orleans, LA 12/2017.

Harrison, J.A. *Magnitudes and impacts of nutrient fluxes to the global coastal ocean in the Anthropocene,* Carnegie Institute, Stanford University, Stanford, CA, 12/2017.

Harrison, J.A. Recent advances and next steps in our understanding of phosphorus transfers at regional to global scales**,** Wageningen, Netherlands, 9/2017, *invitation includes invitation to lead-author a review paper*.

Harrison, J.A. *Magnitudes and impacts of nutrient fluxes to the global coastal ocean in the Anthropocene: insights from the Global Nutrient Export from Watersheds (NEWS) model,* Waterloo, Ontario, CA, 6/2016.

Harrison, J.A. *Bubble Trouble: Water Level Management and Methane Emissions from Reservoirs in the Pacific Northwest Center for Environmental Research, Education, and Outreach, WSU*, Pullman, WA, 3/2016.

Harrison, J.A. *Water Level Management and Methane Emissions from Reservoirs in the Pacific Northwest EPA and Corps of Engineers*, Webinar, 3/2016.

Harrison, J.A. *Bubble Trouble: Water Level Management and Methane Emissions from Reservoirs in the Pacific Northwest Oregon State University Water Resources Graduate Group*, Corvallis, OR, 1/2016.

Harrison, J.A. *Water Level Management and Methane Emissions from Reservoirs in the Pacific Northwest U.S.*, EPA, Cincinnati, OH, 12/2014.

Harrison, J.A. *Water Level Management and Methane Emissions from Reservoirs in the Pacific Northwest U.S.*, WEBEX for USBR and USACE Leadership, 9/2014.

Harrison, J.A. *The Global Nutrient Export from Watersheds (NEWS) Model: An Overview with Relevance to Coastal Margins and Future Earth*, Bergen, Norway, 6/2014

Harrison, J.A. *Watershed Nutrient Fluxes in the Anthropocene: Insights from In Situ and In Silico Approaches*, Utrecht University, 10/2013.

Harrison, J.A. *Watershed Nutrient Fluxes in the Anthropocene: Insights from In Situ and In Silico Approaches*, University of Washington, 4/2013.

Harrison, J.A. *Urban Areas as Sources of Surface Water Pollution at the Global Scale*, University of Washington, 4/2013.

Harrison, J.A., B.R. Deemer, and M. Glavin, *The role of reservoirs and reservoir operation in controlling water quality and greenhouse gas production: examples from a global model and a case study*, Society for Freshwater Science, 6/2012.

Harrison, J.A., *The role of reservoirs and reservoir operation in controlling water quality and greenhouse gas production: examples from a global model and a case study*, Oregon Health and Science University, 5/2012.

Harrison, J.A., *Rivers, nutrients, humans: insights from a case study and a global model*, USGS Oregon Water Science Center, Portland, OR: 6/2010.

Harrison, J.A., *Chancellor's Seminar: Coastal nutrient over-enrichment: a pressing 21st century issue*, Vancouver, WA: 3/09. (video-taped and re-broadcast on Vancouver Public Access Television multiple times)

Harrison, J.A. and D. J. Sobota, *Insights into stream and river biogeochemistry from a few large-scale analyses*, Oregon State University, Corvallis, OR: 11/08.

Harrison, J.A., *Nutrient Delivery to the Coastal Zone: Insights from a Case Study and a Global Model*, Western Washington University, Bellingham, WA: 11/08.

Harrison, J.A., *Regional and global approaches to understanding N-related ecosystem services*, Environmental Protection Agency, Portland, OR: 8/08.

Harrison, J.A., *Nutrient transport through watersheds: how much do people and lakes matter?* Washington State University, Civil and Environmental Engineering Department, Pullman, WA: 11/2007.

Harrison, J.A., *Rivers, nutrients, and greenhouse gases: insights from a case study and a global model*, USGS Cascade Volcanoes Observatory, Vancouver, WA: 1/2007.

Harrison, J.A., *Rivers, nutrients, and greenhouse gases: insights from a case study and a global model*, Zoology Department Seminar, Oregon State University: 11/2006.

Harrison, J.A., *Rivers, nutrients, and greenhouse gases: insights from a case study and a global model*, Ecosystems Center, Marine Biological Laboratory, Woods Hole, MA: 5/2006.

Harrison, J.A., *Rivers, nutrients, and greenhouse gases: insights from a case study and a global model*, San Diego State University, San Diego, CA: 3/2006.

Harrison, J.A., *Human impacts on watershed fluxes of bioactive chemicals: insights from modeling and field-based approaches*, Washington State University, Vancouver and Pullman (2 lectures), WA: 3/2006.

Harrison, J.A., *Rivers, nutrients, and greenhouse gases: insights from a case study and a global model*, University of Texas, Austin, TX: 3/2006.

Harrison, J.A., *Human impacts on watershed biogeochemistry: insights from modeling and field-based approaches*, Bodega Bay Marine Lab, Bodega Bay, CA: 2/2006.

Harrison, J.A., *Urban areas as sources of pollution*, Ecological Society of America, Merida, Mexico: 1/2006.

Harrison, J.A., *Human impacts on watershed biogeochemistry: insights from modeling and field-based approaches*, University of California-Davis, Davis, CA: 4/2005.

Harrison, J.A., *Dissolved inorganic phosphorus export to the coastal zone: results from a spatially-explicit, global model*, University of California-Davis, Davis, CA: 4/2005.

Harrison, J.A., *Rivers, nutrients, and greenhouse gases: insights from a case study and a global model*, Purdue University, West Lafayette, IN: 3/2005.

Harrison, J.A., *Human impacts on watershed biogeochemistry: insights from modeling and field-based approaches*, Indiana University, Bloomington, IN: 1/2005.

Harrison, J.A., *Global-NEWS models and global dissolved nitrogen and phosphorus export to the coastal zone: early results from a multi-element, multi-form approach*, Institute of Ecosystem Studies, Millbrook, NY: 1/2005.

Harrison, J.A., S.P. Seitzinger, N.F Caraco, A.F. Bouwman, A. Beussen, and C.J. Vörösmarty. *Global NEWS models and global dissolved nitrogen and phosphorus export to the coastal zone: early results from a multi-element, multi-form approach*. UNESCO, Paris, France: 5/2004.

Harrison, J.A., *Global NEWS models and global dissolved nitrogen and phosphorus export to the coastal zone: early results from a multi-element, multi-form approach*. RIVM, Bilthoven, Netherlands: 12/2003.

Harrison, J.A., *Spatially explicit models for river export of dissolved organic nitrogen and soluble reactive phosphorus: successes and challenges*. UNESCO, Paris, France: 3/2003.

Harrison, J.A., *Nitrogen dynamics and nitrous oxide (N_2O) production in drainage waters and estuaries of an intensively farmed, subtropical valley*, Department of Environmental Science, Policy, and Management, UC Berkeley, CA: 1/2002.

Harrison, J. A., *Nitrogen dynamics in Yaqui Valley drainage waters*, Annual meeting of the Yaqui Valley research group, San Carlos, Mexico: October 2001.

Harrison, J.A., *Nitrogen dynamics and nitrous oxide (N_2O) production in drainage waters and estuaries of an intensively farmed, subtropical valley*, Water Resources Group at USGS, Menlo Park, CA: 12/2001.

Harrison, J.A., *Nitrogen dynamics and nitrous oxide (N_2O) in the drainage waters of the Yaqui Valley*, Annual meeting of the Yaqui Valley research group, Stanford University, CA: 10/2001.

Harrison, J.A. *Climate change: Is it real?* Portland chapter of the World Affairs Council: 11/2000.

Harrison, J.A. *The role of natural scientists in Taiwanese and Costa Rican environmental policy formulation: successes and challenges*: Presentation of Arnold Fellowship research results, Taiwan Forestry Research Institute; Taipei, Taiwan: 7/1996.

Harrison, J.A. *The role of tropical ecologists in Costa Rican environmental policy*, La Selva Tropical Research Station, Costa Rica: 3/1996.

Academic Service

Service at WSU

Chair: Gretchen Rollwagen-Bollens' Mentoring Committee (2017 – Present)

Member: Jennifer McIntyre's Mentoring Committee (2016 – Present)

Member: School of the Environment Vision and Strategy Committee (2016 – Present)

Chair: Kevan Moffett's Mentoring Committee (2015 – Present)

Member: Water Communications Committee (2018 – Present)

Chair: Water Scientist Faculty Search Committee (2017 – 2018)

Member: Environmental Microbiology Faculty Search Committee (2017)

Chair: Regional Climatologist Faculty Search Committee (2016 – 2017)

Member: Washington Stormwater Center Director Search Committee (2016 – 2017)

Chair: Environmental Chemist Search Committee – WSU Vancouver, (2014-2015)

Member: WSU Vancouver Research Advisory Committee (2014 –2017)

Member: Natural Sciences Graduate Studies Advisory Committee (2014 – 2017)

Member: Environmental Hydrologist Search Committee - WSU Vancouver, (2013 – 2014)

Ex Officio Member: CAHNRS Water Management Task Force (2013 – 2014)

Member: Vice Chancellor for Academic Affairs Search Committee- WSU Vancouver, (2012 – 2013)

Participant: WSU Provost's Leadership Academy (2012)

Member: Aquatic/Riparian Ecologist Search Committee - WSU Pullman, (2012 – 2013)

Member: School of the Environment Curriculum Committee – WSU Pullman and WSU Vancouver, (2011 – 2012)

Member: Environmental Geophysicist Search Committee - WSU Vancouver, (2006 – 2007)

Member: Ecohydrologist Search Committee - WSU Pullman, (2007 – 2008)

Member: SEES Reorganization Research Subcommittee (2009)

Member: SEES Water hire pre-search committee (2009)

Member: SEES Visioning Committee (2010 – 2011)

Coordinator: WSU, Vancouver Science Programs Seminar, (Spring 2007)

Undergraduate Advisor: ~90 WSU Vancouver undergraduates, (Fall 2006 – present)

Professional Service outside WSU

Associate Editor for *Biogeochemistry* (2015-Present) – Journal Impact Factor: 3.5

Invited Lead Author "Flooded Lands" Chapter for United Nations Intergovernmental Panel on Climate Change Task Force on National Greenhouse Gas Inventories (2016-2019)

Member: Association for the Sciences of Limnology and Oceanography (ASLO) Ruth Patrick Awards Committee (2018-Present)

Co-organizer/CO-chair 3 scientific sessions at 2017 winter meeting of the Association for the Study of Limnology and Oceanography (ASLO) and one scientific session at 2017 Fall Meeting of the American Geophysical Union

Co-chair ASLO/SFS/SWS/APS Joint Aquatic Science Meeting, Portland, OR (2012-2014)

Panelist (twice): NSF Ecosystem Science, Division of Environmental Biology

Project Co-Chair (with Lex Bouwman) and North American Chair: UNESCO-IOC-funded Global Nutrient Export from WaterSheds (Global NEWS) project, (2003-Present)

U.S. Environmental Protection Agency Expert: Consultant for U.S. EPA's Ecosystem Services Research Program, Nitrogen Focus, (2009-Present)

Organizer/Co-chair special session on Continental Scale Nutrient Transport at ASLO/NABS joint meeting, Santa Fe, NM, (2010)

Organizer/Co-chair special session on Climate and Nitrogen Dynamics in Aquatic Systems at ASLO/NABS joint meeting, Santa Fe, NM, (2010)

Organizer/Co-chair special session on Nitrogen Sources in the Continental US, San Francisco, CA (2011)

President: Rutgers-IMCS Postdoctoral Association, (2003 - 2005)

Reviews while at WSU

(number of reviews if more than 1)

Proposals:

2018: *National Science Foundation, Make our Planet Great Again Program*
2017: *National Science Foundation (3), Make our Planet Great Again Program (2)*
2016: *NOAA Coastal Hypoxia Research Program Panel (6 proposals), National Science Foundation*
2015: *National Science Foundation (2)*
2014: *National Science Foundation, and Panel*
2013: *National Science Foundation (2)*
2012: *National Science Foundation*
2011: *National Science Foundation*
2010: *National Science Foundation, and Panel*
2009: *National Science Foundation*
2008: *Kearney Foundation, Icelandic Science Centre for Research*
2007: *Kearney Foundation*

Journals and Books:

2017: *PNAS, Biogeochemistry (2), JGR-Biogeosciences, JAWRA*
2016: *Biogeochemistry, Limnology and Oceanography, Global Biogeochemical Cycles*
2015: *Nature, Biogeochemistry, Limnology and Oceanography*
2014: *Ecology, National Park Service and USGS Reports, Journal of Marine Systems, AMBIO*
2013: *Limnology and Oceanography*
2012: *Science, Geophysical Research Letters*
2011: *Science, JGR-Biogeoscience*
2010: *Journal of Environmental Quality, Environmental Modelling and Software, Estuaries and Coasts*
2009: *Limnology and Oceanography, Freshwater Biology, Elsevier Book Proposal*
2008: *Biogeochemistry(2) , Journal of Environmental Quality, J. Hydrology, J. North American Benthological Society, Marine and Freshwater Research*
2007: *Biogeochemistry, Environmental Pollution, JGR Biogeosciences*
2006: *Ecological Applications, Global Biogeochemical Cycles , Journal of Environmental Quality, UNEP-Global Environmental Outlook 4, Water Research*

Professional Memberships

American Geophysical Union
American Society of Limnology and Oceanography
Sigma Xi

Workshops Attended

UNESCO-IOC/UNEP Expert Workshop on Ocean Sustainability Indicators, Paris, France, 2018

Global Water Quality Modeling, OECD, Wageningen, NL, 2017

Earth Cube: Geochemistry and Biogeochemistry of Inland Waters, Boulder, CO, 2013

Connecting the Dots II: Understanding Linkages between Hypoxia and Fisheries, Smithsonian Environmental Research Center, Annapolis, MD, 2010

National Nitrogen Assessment Workshop, Boulder, CO, 2010

National Meeting of U.S. E.P.A. Ecosystem Services Research Program, Athens, GA, 2009

Connecting the Dots: Understanding Linkages Between Hypoxia and Fisheries, Smithsonian Environmental Research Center, Annapolis, MD, 2009

Global Nutrient Export from Watersheds Workshops, UNESCO, Paris, France, 2003, 2004, 2005, 2007, 2008, and 2009

NSF Research Coordination Network in Modeling Denitrification, Institute of Ecosystem Studies, Millbrook, NY, 2007

Dissertations Initiative for the Advancement of Limnology and Oceanography (DIALOG VII), Dauphin Island, AL, 2005, Selective symposium for recent Ph.D. recipients in the aquatic sciences

The First Global and Regional Scenarios Workshop of GEO-4, Bangkok, Thailand, 2005, One of ten representatives from North America to United Nations Environment Programme-organized workshop to explore environmental consequences of four distinct regional and global development scenarios

Nitrate Stable Isotopes Workshop, USGS, Menlo Park, 2002

Integrating Research in a Teaching Environment Program (I-RITE), Stanford University, 2001, short course on communicating research to public

Stable Isotope Ecology Course, University of Utah, 1998, selective short course in the use of stable isotopes in environmental research
