Introduction
The operations for Ste Michelle is to have the quality wine. What takes to have quality wine comes in the way the grapes are grown. That’s where we come in and make sure the grapes are growing right.

Main Section
Main responsibilities were scouting for pest, looking for disorders, doing cluster counts, as well as taking weights. We also needed to do powdery mildew evaluations since this year was a bad year.

Summary
This experience will foster my professional goal because I have learned much from the best in the business. This will also help me in the future when needed. Everything I have learned during this internship will help me throughout my entire career. I will keep learning and improving my skills as well. My goal is to become a great viticulturist and to help growers improve their grapes.
