

Merlino Foods Summer 2022 By: Colby Biesold

- What does Merlino do? Merlino Foods is a distributor of nuts, oils, and other cooking essentials. I drove a delivery truck and I worked to package nuts.
- What do I do? I drove this truck in and around Seattle and delivered food to restaurants. The other photo is inside the truck going to Bellevue Square, a completely full truck.

My growth: I feel like I grew a tremendous amount because of the high degree of responsibility I had placed on me every day. I made friends with my coworkers and am truly sad to be leaving them, I feel like I belong here. I had a few bad days as well which helped me grow, as shown in the last photo! The whole order fell over! I feel very refreshed from my summer job and am excited for school, this was an experience I will never forget.
